EDITORIAL....

WILL THE NEED INCREASE?

The opening of the Ontario Training School for Girls in Lindsay on Tuesday gave thousands of people their first glimpse of the school. It is one of the finest pieces of architecture they have seen. The school they saw was undoubtedly the last word in a house of correction but it is by no means the only institution serving this purpose.

There has been a need for such places ever for the years but we couldn't let Lindsay, as we thought about the new building at Lindsay to serve this need, if the need itself was not about to sound to increase unless we revise our way of life.

Thinking along this line was prompted by the fact that the school is designed primarily to look after children who, through no fault of their own, weren't properly looked after at home. Their training for life was assigned in various ways to the extent that they developed traits which weren't acceptable to society as a whole.

There is the necessity for these schools exist, and while it is interesting to note the progress which is being made in the direction of rehabilitating youngsters who got off on the wrong foot in the time we took a good, long look at modern trends in family life. In our pursuit of the material things of life, we have not come down to earth enough, only neglecting our children but foregoing home life as it is intended to be. Have we been so concerned about acquiring that new t.v., car, what-have-you? to observe what was happening to our children and ourselves? Those are some of the things we should ask ourselves every time a new training school opens, necessary as it may be, rather than putting ourselves on the back for seeing these youngsters are well cared for when they finally land in trouble.

Do we need for training schools for boys and girls increase? Quite possibly unless those who are primarily responsible for neglecting their lives take their responsibilities more seriously. Perhaps never brought out the best in anything yet.

Reports and Remarks...

BEAUTY SLEEP - NOT AN OLD WIVES' TRAIL

In a recent "Science and Industry" programme in the BBC General Overseas Service, Tim Bowden interviewed William Boudreau of Birkbeck College, London University about the myths of the skin. Boudreau has shown that the skin is the upper layer of the skin in a dead, and is constantly being replaced from life underneath; the skin is replaced mainly while we are asleep—so there may be something in the time "beauty sleep" after all. The reason why we wake up when we wake up is that the back-groom mechanism seems to be in its adrenal glands; glands in the skin of the face. When we are awake and active, the glands in the face are replaced. When we are asleep, and this activity stops skin replacement.

This is important where the healing of wounds is concerned, as under excessive stress and worry the healing process slows up. Medical experience has shown that after an operation the rate of wound-healing is quicker if a person is allowed to go home. Further research is being done in this field of skin growth. As it is thought that stress and worry could perhaps slow down the rate of growth in children. Experiments among rats show that it is so; rats used to a certain diet and their own particular cage, when given different foods and a constant change of home are retarded in their growth.—BBC London Letter.

Remember way back when

AUGUST 1, 1912

The County Engineer who was Bobagayon yesterday on county business, remained over at the request of the village council, and laid out a stretch of concrete sidewalk for the village. Bobagayon people have up to date in their careers. They insist on having the walks with straight curb lines and uniform grade lines. Lindsay might not up and take notice.

Trip to Cobcock

The steamer Lintonia will run on excursion to Cobcock tomorrow. The boat leaves Lindsay at 9:30 a.m. Fare 50 cents. This trip affords a delightful outing.

Chemong Regatta

The Chemong Ontarians' Association decided at a well attended meeting to hold this year's regatta on August 23rd.

AUGUST 1, 1937

The Halliburton-Wilberforce Works has reached the point where an extra shift has been added. The firm commenced the extra shift and work recently and work mostly on the drill. Above the old Dover Hill there is quite a lot of rock and stone and the process is slow but the extra shift will speed it up. This new road will be an improvement and will help the lumber business, the wood business and the tourist trade as the new highway takes off many hills and curves.

Margaret T. Allen

The funeral of Mrs. Margaret Theresa Allen, widow of the late Robert Allen, of Kilmoun, was held on Friday, July 13, 1962.

Mrs. Allen died on July 13th in Bobagayon Hospital. She was in her 84th year. Born in Galway, County Sligo, Ireland, she was the daughter of the late Michael O'Leary and the former Catherine Heaney.

Mrs. Allen lived all her life in the area, except for short periods in Detroit, Michigan, and Lakeland, Florida.

Mrs. Allen lived all her life in the area, except for short periods in Detroit, Michigan, and Lakeland, Florida.

SIGNAL TROUBLE

Motorists and pedestrians have been a little confused these past few days when attempting to negotiate the William St. Kent St. corner, owing to the behaviour of the traffic signals.

Lindsay Hydro told "The Post" today that the municipal controller in the signal change box had been worn and was not working.

An emergency call to Peterboro Utilities located a replacement and the signal should be in full operation for the rush hour traffic.

School's purpose outlined

Here for training, not punishment

Reforms Minister tells assembly

"This training school with a program of teaching and training has been established with a view of returning girls to society as useful and responsible citizens," stated The Hon. Irwin Hackett, Minister of Reform Institutions in his remarks as chairman for the opening of the Ontario Training School for Girls on Tuesday. An estimated 1,000 interested people were in attendance.

The girls in the school are selected type here for training, not punishment, the chairman emphasized. Emphasis will be placed on the academic, spiritual or clinical aspects which are most needed in the group.

The school was opened at the seventh of three boys' and girls' training schools in the province, operated directly by the Department.

"This large representative gathering here today indicates interest and support in this important work to be carried out in this fine and imposing institution. The institution managed with thoughtful and creditworthy philosophy is and will be an asset to the community."

"The addition of this school to the system was the product of long and careful thought as that of The Hon. Ray Connell, in whose term as Minister would appear the project."

Hackett recalled that in 1946 the Department of Reform Institutions was organized in the province of Ontario and that the department had since attained a place pre-eminent. In the service of Reform Institutions, the department had great strides in establishment of institutions at Guelph, Inglewood, Milbrook, Port Bolivar and with the establishment of this school's school, Lindsay would profit as well as all Ontario.

Don't Boud, Secretary. (H7885)

Office of R. A. Benton, Chiropractor will be closed from July 25 to August 7, for annual vacation. (H7965)

After head-on collision

Mother, daughter in RMH

A mother, and a daughter who were taken to the Minden hospital with undetermined injuries. Mr. Howard, his wife Lillian, and their ten-year-old daughter Elaine were taken to the RMH Memorial Hospital where they were treated for lacerations to the face and released, and the wife, who had been treated for forehead lacerations, and possible lateral injuries.

The daughter, who was taken to the hospital for treatment for head injuries following an accident at home, is being treated for a fractured nose, lacerations to the face and legs, and other undetermined injuries.

Investigating O.P.P. Const. John Persavage of the Minden detachment, said the two vehicles were a complete loss.

First

(Continued From Page 1)

and highways development including that of Trans Canada. We cannot afford to cast any one aside in this development wherein also lies the great problem of education, which concerns three times as many children now as in 1945. It would appear the amount required for this purpose will soon have grown from the present \$80 million to \$100 million.

"I was under the mark," he said.

Mr. Ruth Jinks jumped out of the car when warned of the danger and her husband. Investigating the trouble may have had his face injured, but there was no other damage," mechanic Smith stated.

Broken light bulb, leaking gas line causes flash fire

A broken tourist light bulb and a leaking gas line caused a flash fire at Race Motor Repair shop at 8:40 p.m. Tuesday.

Gary Smith, mechanic repairing the gas line of the car told "The Post" the resulting flame was mostly confined to an old pile catching the leaking gas. "I was under the mark," he said.

Mr. Ruth Jinks jumped out of the car when warned of the danger and her husband. Investigating the trouble may have had his face injured, but there was no other damage," mechanic Smith stated.

Noticed

(Continued From Page 1)

a fact which drew an expression of regret from former premier Leslie M. Frost when he learned of it afterwards. The Hon. George Wardlaw, now Minister of Mines, is the man and both Frost and Deputy-minister of Public Works, J. D. McLean, wished he had been called on to take part.

The inner man is seldom forgotten by either those who plan or attend these functions. "Only a small percentage of the visitors by the school's cafeteria."

Waitresses were forgotten as they served the food to the people prepared by the staff of Lindsay and Milbrook.

The girls already in training at the school probably wish every day was opening day. For them, too, a holiday a day away from what will be home to them for an indefinite period.

It happens every once in a while and is being at Lindsay on Tuesday. "The lead man failed to put in an appearance. It was announced during the official school opening ceremonies that Premier John Roberts would be unable to attend. "He had developed a foot infection. A number of people said afterwards they hoped they would have had an opportunity of meeting the province's successor to The Hon. Leslie M. Frost."

Chief releases, magistrate modifies

A fine was reduced to half and a car returned to the owner, after being impounded, a considerable magistrate, after hearing a plea for leniency from the arresting officer.

J. C. Miller, 20, of Ormeau, charged on July 13 with care and control of a vehicle was found guilty and fined \$200, plus seven days. The licence suspended for three months and his car impounded, when he appeared before Magistrate Moore in court today.

Arresting officer Chief Warden of Ormeau told of finding Miller at the wheel of his car in the village, where he was treated for lacerations to the face and released, and the wife, who had been treated for forehead lacerations, and possible lateral injuries.

The daughter, who was taken to the hospital for treatment for head injuries following an accident at home, is being treated for a fractured nose, lacerations to the face and legs, and other undetermined injuries.

Investigating O.P.P. Const. John Persavage of the Minden detachment, said the two vehicles were a complete loss.

Reports little can be done about algae

Arthur Burridge, chairman of Pleasant Point council, reported that he had interviewed authorities regarding the presence of algae in Sturgeon Lake and that there can be no action regarding the problem.

Trent Valley officials stated their department was not responsible for clearing up the situation.

It is feared the algae has largely disappeared from Sturgeon Lake and also that it is only dangerous when consuming.

GOING WEST?

GO PART OF THE WAY BY WATER!

Break your trip with a leisurely voyage across the Great Lakes. Enjoy a relaxing day boat trip between Port McNicoll, Can. West, Port Arthur and Fort William. A year in a decked with your own cabin food—only north and south. By day, scenic beauty, fresh water breezes, light spots and lounging in the sun. By night, dancing, music, singing, and more.

Sailing twice weekly from June 18 to September 15. Westerns Wednesday and Saturday from Port McNicoll. Easterns Tuesday and Saturday from Fort William. All aboard—\$200.00. Book—\$10.00. By Lake Huron. Lake Superior—\$30.00.

CROSSWORD PUZZLE SOLUTION

Savoury Salmon Crunch Cups

OFF-BEAT

HEAT BEATER

The language purist and cook who goes by the book might not consider today's unusual recipe a salad in the truest sense, for among stories relating the derivation of the word is the belief that salads get their name from the ancient Roman habit of dipping chicken and other meats in salt to make them tastier. Since "salt" is the Latin word for salt, the combination came to be known as salad. All this may well be true but we'll vouch for Savory Salmon Salad Crunch Cups as amongst the tastiest and most attractive of all the salads under the sun, despite the fact that they are "greenless".

The unique uses of crunchily toast cups, subtly seasoned with celery seeds, takes the salad apart. It wins particularly high approval with males who like their salads on the substantial side. The fact that popular canned salmon is the feature increases its appeal, particularly when sweet mustard pickle and chopped raw cauliflower provide delicacy and slightly offbeat accents of flavor and texture. Once you've tasted Through Fisheries Aps, you'll doubtless become

a favorite with the family and friends who share in its tastefulness.

Savory Salmon Salad Crunch Cups

8 thin slices white bread, crusts removed; Soft butter; 1 teaspoon oil; about 2 cups canned salmon (1, 1-pound can); 1/3 cup finely chopped celery; 1/3 cup crisp, raw cauliflowers, broken up; tablespoons chopped pimiento; 1/3 cup mayonnaise; 1/3 cup chopped sweet mixed mustard; pickle; salt and pepper to taste; Pimiento strips.

Lightly spread both sides with bread with soft butter. Press into muffin tins, letting corners protrude slightly. Sprinkle tops with celery seeds. Toast in preheated slow oven (300 deg. F) until crisp, about 1 hour. Cool to room temperature before filling. For salad mixture, mix together thoroughly the salmon, celery, cauliflower, chopped pimiento, mayonnaise and pickle. Season to taste with salt and pepper. Chill thoroughly. Just before serving, fill cooked Crunch Cups with salmon mixture, garnish with pimiento strips. Allow two per serving. Makes 12 salad cups or 4 servings.

After spending part of their

holidays near Kingston Mr. and Mrs. Rochester Nicholson of Toronto, spent the remainder with parents, Mr. and Mrs. Peter Webster and Mr. and Mrs. Donald Nicholson and relatives, and on returning to Toronto, were accompanied by Sister Joan Webster to spend a holiday in Toronto, Miss Peggy Johnston, of Toronto, is visiting with the Webster family.

Mr. and Mrs. Grant McKay and Mrs. Tom Brown attended the Horse picnic at Coy Cove near Rosedale and later had no guests at their home, aunt and uncle, Mr. and Mrs. Kennedy Spence, of Brampton, also cousins, Dr. and Mrs. Nene

After spending part of their

holidays near Kingston Mr. and Mrs. J. D. MacMillan accompanied by sister, Mrs. Mae Moynes attended a Lawn Party at the home of Sir George and Lady Ritchie on Warr Drive in Toronto to meet Sir Gordon and Lady Marianne MacMillan recently arriving from Scotland. About 40 MacMillans gathered including Ernest and Lady MacMillan and Dr. Hugh MacMillan and wife who spent 38 years ministering in a leper colony in Korea. All were planning also to be present at the MacMillan gathering held this year at Cornwall.

Mr. and Mrs. Orlan Brown visited brother-in-law Robert Spence of Lindsay who was hospitalized for the past week with a heart ailment but friends hope he may soon be much improved.

Lindsay Masons at Fenelon Falls visitors night

The annual visitor's night was observed by Spirit Lodge F.F. and A.M. at Fenelon Falls with a number of Lindsay Masons in attendance. The visitors also included a number of American citizens who are summing in the district. Rt. - W. Bro. Chas. Heels, historian for Lindsay Masonic lodge, was called on for a few remarks and in reply briefly outlined the history of Spirit Lodge. Many years ago, he stated, Masons from Fenelon Falls and Fenelon Falls exchanged visits and in the winter months the journey was made by horse and sleigh using the ice on Sugar River.

BOYS WILL BE BOYS

Boys will be boys, even when they are choirboys. So now on the choirboys of St. John's Church at Chelmsford, England, will be given books about the choir while the pastor preaches. Choirmaster Arnold Gandy said the action was taken because "suitable reading is better than caricaturing the choir."

Mary McCorvie honored prior to marriage

A beautiful shower of attractive this for a home, was tendered to Miss Mary McCorvie in the school room of the church.

She was subjected to a beautifully decorated platform by a bevy of school friends and neighbors, while Mrs. Grant Ferguson accompanied them with the Wedding March at the piano.

A very appropriate address was read by Miss Donna Teet after which Mary was assisted with the gifts by Mrs. Joan Wilson, of Manilla, Misses Jeanne Wabala, Dorothy Dawson and Donna Teet.

As the Hudson Bay Co. provided furnished homes for a bevy of school friends and neighbors, while Mrs. Grant Ferguson accompanied them with the Wedding March at the piano.

Mr. Frank Kirk asked for a solo from Bonnie Ferguson who accompanied by her brother sang "Love Me Tender" with an encore. Mrs. Rick gave a reading "Her Announcement," Susanne Webb, gave a piano solo and Jane Webster accompanied by her sister Sharon sang "Some Enchanted Evening."

Candy was enjoyed. A few of those attending from out of town were Mrs. Bruce Chalkley and Marilyn, Mrs. Jack Rathwell, Dorothy Dawson, of Lindsay; Miss Kathleen Hicks, Miss Minnie Anderson, Donna Teet of Toronto, Mrs. Jack Hicks, of Peterboro; Mrs. C. Hallett, of Sorey; Mrs. Joan Wilson of Manilla.

Open House held for visitors

Mr. and Mrs. Arthur Cummings held open house in honor of Mrs. Cummings's sister, Mrs. ATKINSON, of Belfast, and her cousin, Mrs. Alexander Field, of Colaland, Northern Ireland.

More than 100 Canadian friends came to welcome them.

A linen damask cloth brought from Ireland many years ago was on the tea table and an interesting item in the hand-carved shelltag brought by the guests as a gift to Mr. Cummings.

Assisting were Mrs. Horace W. Bill, Mrs. James Brooks, Miss Judy Abbott, of Lindsay; Mrs. (Rev.) R. S. Mansfield and other ladies from Peterborough and Burleigh Falls. Mr. Atkinson were an Irish handkerchief, linen blouse and Mrs. Field's Irish knit print dress. Each had a corsage of pink carnations.

Surprise guest of the evening was Miss Elsie Moore, also from Belfast, who is visiting her sister Mrs. John Scott in Ormeau at the same time.

HED TO BURN

When Joseph Colechia of a Pittsburgh telephoned an ocean resort to Wildwood, New Jersey, to confirm his vacation reservation... and did a burn.

The hotel clerk in Wildwood explained that the reservation had been sent by mail - remarked that the post office is often "slow".

Colechia is a postal employee.

During the absence of Chief J. Whetnam on vacation his office is being filled in by Mr. William Weir.

Mr. and Mrs. Eric Christianson, missionaries in Mangalore, India, visited at the home of

The ever-increasing range of new types of penicillin being evolved in Britain, and the related cephalosporins produced at Oxford University, all owe their existence to the late Sir Alexander Fleming. He noticed that mould growing in a dish killed bacteria around it. He isolated the material produced by the mould, naming it penicillin.

Where bacteria are plentiful, a single cut such as this man has given himself frequently becomes infected.

Instead of the flesh healing, bacteria find their way into the wound and set up diseases like yaws.

Valentia

Mr. and Mrs. Ken Duncan Pierce Albert, and Carol Smith and daughter Nancy, Carol and Greenbank, are conducting the

couple week's holiday at the parents, Mr. and Mrs. Harry Thompson.

Mr. Clifford Mark of Mimico visited his mother, Mrs. Phil Mark at the home of his sister, Mrs. Cephas Jordan.

Miss Isabelle Davey Lindsay is spending a few holidays at the home of her sister, Mr. and Mrs. Maddock.

Mr. and Mrs. John Thompson, of Toronto, Mr. and Mrs. Bruce Wakeford, Peterborough visited at the home of Mr. and Mrs. Harry Thompson.

Mr. and Mrs. Roy Bullock, of Little Britain called on her sister, Mrs. Orr Mark and Mr. Mark before leaving.

Misses Mildred Martin, of Murray Bay, Lindsay.

After the development of penicillin, treatment was very slow and difficult. Today injections, ointments and pills make penicillin readily available to combat a wide range of diseases. A man once doomed to years of suffering can now expect to be fit and well in a short time.

Casuals and knitwear are popular in London

London: Swinging boylest-shirts, leather button-bellied, fluffy blouses with charming suits of fine British wools are featured in the autumn/winter collections. Colors are all bright, even of the new knitwear for men.

Here are some of the showings:

Susan Small Casuals

Autumn-Winter
Simplicity and the relaxed look are featured in Susan Small's Autumn Collection. There is an apocryphal story about these clothes, something for everyone, directly in line with current trends, but retaining values that will stand the test of time. Emphasis is on clear colors for the Autumn, with growing emphasis on camel and warm browns, and with subtle tweed mixtures a strong point.

The whole collection comprises of jersey wear, but such fantastic things can be done with British jersey nowadays that one is never quite sure one is looking at fine tweed, but wool or knitted fabric. Double-knit jersey for suits is still a strong favorite with contrasting tops in jacquard or stripes.

Susan Small shows many knitted dresses with high polo necks, many straight and are loosely belted, as well as many versions of the Chanel suit with buttonless and collarless jackets piped in velvet.

Many of the dresses, suit and jumper suits are shown with separate matching scarves. Skirts are straight or gently flared or have a lovely ruffle when boy-collared all round. Waistlines on dresses are emphasized by broad leather belts and are of the classic shirt waist type buttoned to, or just below the waist, but sometimes shown with a tie neckline instead of the more classic lapels. Heavy ribbed knitted coats which look like British tweeds are shown with matching schoolboy scarves and knitted hats.

For evening there is jersey with lurex, the lurex either knitted into the fabric or used as a trimming as on one black cardigan suit which had gold lurex trimming around the neck and down the front fastening.

There are lovely color combinations such as emerald and midnight blue. Amber teamed with camel or green or black. Clear bright reds and much more black and grey for day wear. Deep greens are shown with black in boucle jersey and red and black jacquard jersey are shown for larger sizes in suits with satin trimmings.

Marcel Fenez

Autumn-Winter
That indefinable French chic runs all through the Marcel

Fenez Autumn Collection. Easy relaxed or figure hugging with lay high collars, there was a swing to skirts either pleated or flared and many belts of the natural waistline.

Suits with the easy skirt line had either loose buttoned jackets or were double breasted, jackets were long. Plain fabrics were teamed with checked tops and trimming on the jacket, in fact there were many checks throughout the collection. One tweed suit was teamed with a pinstriped turtleneck blouse.

Day dresses had high folded collars, were belted and had fluted or flared skirts and light bodices emphasized the high collar and skirts if not flared had flat stitched pleating or the new malbec line. There were one or two classic shortwaisted in tweed with quilted collars. Sleeves were nearly all $\frac{3}{4}$ length.

Classic Sweaters
And Cardigans
Beautifully tailored casual sweaters and cardigans form the basic of autumn/winter collection of knitwear for women. Variations are shown in necklines. V-necked with collar or buttoned through cardigans with neat pointed collars. Sleeves are full and also $\frac{3}{4}$ length. A new style is a sweater with a round neck slit two or three inches down the front of the neckline and front emphasized with three sweaters coordinated with skirts in plain wools or multi-colored tweeds, which are mainly checked.

—British Woollens News

Charles T. Campbell

Charles Thomas Campbell, of 12 Bay St. S., Lindsay, passed away at the Ross Memorial Hospital on July 25, 1962 after a lengthy illness. The deceased was 62 years of age.

Born in the Township of Perry, District of Perry County, the deceased was the son of the late Thomas James and Rachel Olive Campbell and was the husband of Rose Madill, who survives him. He had resided in Lindsay for 19 years and before moving here had resided in Rosedale, Timmins and Coburn, Ontario. He was educated in Katimiquia, Ontario and was a member of the Moose Lodge.

Besides his wife he is survived by one daughter Dorothy Davidson, of Nipissing; three sons Wallace and Norman, of Lindsay, and Richard, of Peterborough; four brothers, Edgar, of St. Catharines, Foster and Clarence of Timmins and Albert of Coburn and five sisters, Susan McLaughlin, Violet, Marie, Pearl and of Algoma Mills, Pearl Baird, of Richmond, David Deberry, of St. Catharines, and Neil Stapleton, of Watford. Thirteen grandchildren and one great-grandchild also survive.

The funeral was held on July 25th from the Mackay Funeral Home at 3 p.m. Rev. B. H. Eaton, of William St. Baptist Church, Lindsay conducted the service. Interment was in Riverside Cemetery.

The pallbearers were Bill Perry, Charlie Perry, Vic Robinson, Reg. Madill, Bert Madill, and Tom Preston.

Tennessee Williams' play next Red Barn attraction

Starting on Tuesday, August 7th, the Red Barn Theatre at Jackson's Point will present its first Tennessee Williams play.

THE GLASS MENAGERIE, a moving study of the family's illusion. It tells the story of a family from Los Angeles. The mother lives in a carefully constructed world based on her "gentle" past, she dreams of her own youth, and her ambitions for her two children. Her daughter, Laura, a painfully shy, wears a brace on her leg, and is rather like the glass menagerie's fragile, to be moved from the shelf. "Laura years ago," says the production, "but when he actually appears, you see, it is unable to face such reality, and remains close to 18th.

Many win prizes at carnival; Haliburton man gets boat

Minden (PNS) — After a very rainy morning and afternoon, a parade of fire trucks, decorated boats, ponies and riding horses, and people in costumes passed along the Main Street to open the Minden Carnival. Included on the float was the Water Carnival Queen, Miss Pat Weiss. This was a splendid display and was preceded by the band of the Royal Canadian Legion of Haliburton, playing excellent selections of parade music.

All the entries were of the best and made the judging very best lodge or resort, buton.

West coast sealer hopes great new lease on life

Reeve says study now being made

Hopes for a sear to serve the southeast coast of Labrador are given a new lease on life at last week's Kivalliq Club meeting.

Interested regarding the South Ward sewage problem recently discussed at a health board meeting, and published in "The Post", was brought to the attention of the Kivalliq Club members at their regular luncheon.

Kivalliq Norm. Skick asked for a clearer explanation regarding the problem.

Reeve, David Ford, invited to the meeting along with other councillors to answer questions.

Reeve, in reply, stated that the Council was giving serious consideration to the sewage problem.

He said that something had to be done, and that it was recognized that the cost of the sewer was affected has been paying sewer taxes for years, but have not received a sewer.

Reeve further stated that a proposal he said, is to build a sewer and pay a proportion of the cost out of the extra revenue of 25% bond in water rates. A survey was being carried out by the department in that area, he added.

Kivalliq Police, he said, that the cost of the sewer was borne by the taxpayers as a whole.

He stated that the cost of the present sewerage system had only been partly paid for by the owners of property in that area involved, in that the sewer was built to serve part of the south ward, but was not comparable to other property owners in the area.

Only in recent years, he said, has the sewerage system been increased in the southeast section of the town, he said.

Will try to limit exports to United States

President Kennedy will seek negotiations with Canada designed to reduce Canadian exports of lumber to the U.S.

Kennedy said in Washington recently the initiation of the trade talks is a first step in a program to help the U.S. west coast lumber industry overcome its competitive position.

The broad outlines of the program were announced at a meeting with members of Congress from Washington State, Oregon, California, Idaho, Montana and Alaska.

Washington Senator Warren Magnuson said that the U.S. has already taken steps in a program to help the U.S. west coast lumber industry overcome its competitive position.

Litterally speaking

"Now, don't pay for a cabin truck with carefree abandon until we get a look at it. Hank! This simply refers to step in a dirty room," says Mrs. Tourist as her husband runs the car into the motel driveway.

"You're talking about the back seat, while mother follows the clerk to the cabin for a check on beds and bath before dad is allowed to sign the register."

A meticulous woman? Yes, and no.

Less than half an hour before, the woman, who now crisscrosses start such as well as under cleanliness in it's easy to understand why a motel room rolled down the litter accumulation has car windows and tossed a crumpled package and some used tissues onto the highway. Five

over, it's both an urban and a rural problem.

Refuse on beaches, parks, empty milk cartons, banana skins, crumpled paper napkins into lakes and streams, and debris and other assorted blemishes in a heap under a tree, offend the only noses it may pollute lakes and rivers.

After reading the morning newspaper on his way in an age of disposability when everything has been

possibly, to throwing away it, he has become almost automatic. But it is a gesture that would be continued, or we'll

litter-happy trail dropping candy wrappers and popcicle sticks into a giant garbage heap.

It was decided to have the engineer and engineer check other hospitals and laundries who were using the equipment, one night at Port York. Students from all over Ontario competed in the contest.

Laundry bids are discussed by governors

Two bids regarding new equipment for the hospital laundry were discussed at the regular board meeting last week.

Canada Laundry Machine Co. and Dale Ltd., both of Toronto had submitted bids to supply and installing the modern washer - dryer set of approximately \$25,000.

A detailed description was given by one of the companies which stressed the need of special equipment they could provide to prevent excessive vibration.

The laundry room, being located over one of the boiler rooms, presented a problem for the heavy equipment on the lifting of it weighing up to six tons and braces would have to be installed for over three years now and had not shifted on its base.

Administrators Freshford told the members that the laundry manager and one of the engineers had visited one of the hospitals in St. Catharines using such equipment, had been assured that it had been used for over three years now and had not shifted on its base.

Mr

Mount Lions get behind exhibit-area project

\$16,000 puts up a lot of building

Kinsmont Fair — the big summer fair in these parts — will have a modern exhibit building in operation in time for the 1982 September session.

As a matter of fact, the building will do more than serve the fair. It will double as a skating rink in the winter.

Being constructed on the Galsworthy and Semerville Agricultural Society's grounds, it is the realization of an ambition long held by the society and shared by the active Kinsmont Lions Club.

One of the most interesting features of the building is the manner in which it is being constructed and the dovetail method which is keeping costs within an estimated \$16,000, of which the Lions Club has agreed to pay \$1,000.

The 60 x 100 structure is built with laminated concrete rafters which were made right on the spot by the contractor and his crew.

These columns, which support seven pairs of one-inch lumber, are spaced at 12-foot intervals, leaving a clear span of 12 feet, 6 inches.

These columns, which support seven pairs of one-inch lumber, are spaced at 12-foot intervals, leaving a clear span of 12 feet, 6 inches.

The agricultural society's general manager, Lou Wright, says the need for such a building has become increasingly apparent every year. "Last year we could not accommodate all the exhibits and this year we forecast a total attendance of between 8,000 and 10,000 people for the one-day fair."

Contractor is Garnet Hope of Windsor, and Chairman and he said this week the 22-foot high square building will be built in 1981.

Similar but smaller type structures, such as implement sheds, work out at about a dollar per square foot to build, he disclosed.

Mr. Wright said he expected the exhibit-area building will be completed before the end of August. The fair is held on the Saturday before Labour Day.

Future plans call for a two-story building to accommodate area facilities and spectators at winter events.

Kinsmont Fair has a Class C rating (9-10,000 attendance).

Congratulated on 1962 'review'

Mrs. M. Burnett, owner and manager of the Lindsay Business College, is receiving congratulations on the re-orientation of the review of the 1962 year 'review'. It is very compact and it deals with a lot of facts and success of the college. It is also illustrated and portrays the students and teachers. Mrs. Burnett is listed as the editor and Miss Olive Maitson as the assistant editor and member of the teaching staff.

Maitson for a time managed the Simpson-Sears office in Lindsay.

Hostess to 43

Mrs. Barney Rogers was hostess to 43 guests who gathered at her home, 30 Adelaide St. E., to honor Mrs. Keith Traynor (nee Marie Canavan) on her recent marriage.

The function took the form of a mixed reception and the bride was the recipient of many beautiful gifts.

The party was spent in viewing slides of the Calgary Stampede, viewing the gifts and the enjoyment of a social time over the tea table.

Scenes on the job

Taken on the site of contractor manager during a work break. Davis. Standing on the job site, the picture (left) shows workers and the ground. Joe Shaw, George and Leo Wright and Garret agricultural society's general, Allan Ford and Tom Hope, contractor for the job.

First trip east in 35 years, visits in town

Leonard Jones of Grand Prairie, Alberta, is now enjoying his first trip to his native Ontario in 35 years. With his wife and three of his 11 children, Ruth, Joyce and Tommy, he has visited Mr. and Mrs. Gilbert Jones, Barabro, Weston Jones, Port Hope, Mr. and Mrs. Charles Reed and Mrs. Barney Rogers, Lindsay, and a daughter, Mrs. Emmerson, Mont. Ganoque.

It is planned to spend three weeks on this motor trip, the trip east being made by the Canadian road and the return by way of the States from Sault Ste. Marie.

Mr. Wright said he expected the exhibit-area building will be completed before the end of August. The fair is held on the Saturday before Labour Day.

Future plans call for a two-story building to accommodate area facilities and spectators at winter events.

Kinsmont Fair has a Class C rating (9-10,000 attendance).

High rider Allan Ford nabs the latest member to be raised into position.

Noticed

A magazine subscription story by a different writer comes from a Lindsay woman today. "It was this had nothing to do with anything working their way through college."

As a matter of fact, it suggested a need for higher education among people who take up this line of endeavour.

The lady who called says she thinks the get who contacted her this week should take a post-graduate course in mathematics.

The story goes that the salesman called on the telephone to say he had a wonderful bargain in magazines for which he was here for just 25 cents a week. "She didn't even have to call the money."

The magazines reportedly being offered were "The Ladies' Home Journal" and "The Saturday Evening Post".

Good Housekeeping, "The Ladies' Home Journal" and "The Saturday Evening Post" are all well known magazines.

Reports RMH per day costs well within budget figure

Hospital Administrator E. noted that though the operating expenses had exceeded the budget, it was well within the higher utilization of services than was contained in the budget, and was a slight increase in the past year over last month, but it was due to seasonal time replacement.

"However," he said, "I am expenditures to date have exceeded the expenditures but we are not out of the money."

"Our operating costs for the commission for our 1982 budget allowance," \$34.22 actually compared with \$34.22.

"On this basis," he added, "the hospital is in a fairly good position."

"Very gratifying," remarked the Administrator also Chairman R. J. Moore.

To move, or not to move? trees stand in the way

"To move, or not to move?" but it looks as if this won't be the question being considered by a local moving company contracted to move a couple more homes from the vicinity of the new post office.

Parks Board Chairman C. Brown, told "The Post" today that "the trees are going to be removed."

"As for the trees on Russell St. that are to be removed for the new building, I don't see why they can't build the house around them."

"There has never been any agreement between the Parks Board and the Lindsay City Council regarding removal of trees," he added, "which leaves cause for confusion and comment on the part of anyone doing any building."

"In a number of cases," he continued, "we have been compensated for the removal of trees."

"We have put that money to use in further restoration of the park."

STOP!... killing yourself

By Peter J. Steiner, M.D., F.A.C.P.

WHAT TO DO ABOUT HYPERCHOLESTEROLEMIA

Here's a tongue-twister for you: hypercholesterolemia, which means above normal amount of cholesterol in the blood—above 220 mg./100 cc. But people are prone to ignore its signs because it goes along. Often easily in asymptomatic (which probably was considered a

feature of sorts in its own day). A common story goes like this: A man decided to go to the doctor for a physical check-up, although he feels perfectly healthy. During the course of the examination the doctor found a high blood cholesterol. What shall the patient do? Electrocardiogram, X rays the importance of normal and all other examinations are negative. Shall he forget a nutcracker fete (cream, butter, fatty meats, fried foods, eggs, pastry, etc.) in an attempt to lower the cholesterol, in addition there are drugs which help bring down the level of cholesterol, like statins and many others.

I think that while it is about to be should try to track it down. Is there a history of vascular accidents in the family? Like coronary disease, stroke, kidney disease? How about hypothyroidism, in which there is a tendency to high cholesterol? Do others in the family have high readings? Is there a history of

kidney disease?

What shall the patient do?

EDITORIAL....

FACTS ABOUT THE DAILY NEWSPAPERS IN CANADA

Since advertising is the major source of a newspaper's income, and since advertisers are interested in knowing how the public reacts to various advertising media, the Canadian Daily Newspaper Association has conducted a survey, the results of which will be of interest to our advertising and reading public.

On completion of its survey, CDNA made these observations on its findings:

Daily newspapers offer you a firm price structure. This is in direct contrast to the movable rates and "guesswork" ad circulation figures often proffered by radio and television stations.

"Last year, CDNA presented charts showing the division of television audiences in Canada's three top markets—Montreal, Toronto and Vancouver.

"These charts showed that in these areas United States television stations took most of the audience.

"In Canada, the daily newspapers imported daily newspaper compete in any sense of the word with the daily newspapers of Canada.

"The greater influence of the daily newspaper on its reader is reflected in the results to a question asked by the CDNA while conducting the Canadian Consumer Survey... of 101... a study of brand preferences and product ownership which was conducted every second year.

"The question asked was: 'What type of Advertising influences Your Buying Most?' Radio? Television? Daily Newspapers? Magazines?"

"36,649 questionnaires from coast to coast were tabulated. The tabulation shows the following figures (on a Canada-wide basis):

Radio	6%
Magazines	24%
Television	24%
Daily Newspapers	61%
Did not state	7%

"Percentages added to more than 100% because some respondents mentioned more than one medium."

"Another reason for the welcome second day newspaper circulation was the state of the market. Their circulation is an undisturbed figure."

"And... the audience knows no 'off season'. Newspapers are sought after and read every day."

"An analysis of daily newspaper circulation over a three year period showed no month varied more than 4% from the peak period."

"Weekend sales... is the flexibility of daily newspapers—in timing and in content."

"The foregoing are FACTS about the daily newspapers in Canada and are open to the most careful investigation. FACTS like the GUESSWORK out of advertising!"

Reports and Remarks...

THE GAP BETWEEN

Between 1949 and 1961, hourly earnings in Canadian manufacturing industry rose by 88 percent. In the same period, output per man-hour (volume of production divided by employment and hours worked) went up by only 10 percent.

Taken together, these are disturbing statistics, and they are official ones. The gap between the two should be enough enough for anyone to question the validity of the repeated warnings by industrial spokesmen, economists and others on the subject of wage demands increasing by higher productivity.

There is, fortunately, some evidence to support the view that more Canadians now realize that the immediate need is to earn the right to maintain the living standards reached in years when the challenge of foreign competition was less potent than it has since become.

In a recent address before members of the Rotary Club of Halifax, Mr. Carl A. Pollock, president of the Canadian Manufacturers' Association, had some pertinent comments on this point. Said Mr. Pollock:

"There is no doubt that Canadian goods generally are much more aware than they were even two or three years ago of the effect on jobs and living standards of intensified foreign competition."

"Management certainly has every reason to appreciate what is at stake and I am hopeful that organized labour also is coming to the same realization. The obligation to produce a competitive product at competitive price is essentially management's, but management cannot deliver without the co-operation of labour."

"I have emphasized the extent to which our industrial costs are influenced by raw fundamentals as our limited and scattered domestic market and heavy taxes. Wage pressures unrelated to productivity are, of course, the other price factor in our book."

"Industrialists like myself are sometimes criticized for mentioning heavy taxes and high wages. I am certainly not high minded. I am only pointing out that even wages in the sense that they reflect in part a real gain in output. But there was no sense to me or any other individual to be no opposed to it in the best interest of all of us to sustain the consumer's purchasing power at the highest possible level."

Thinks arena should be named only for the town

Lindsay, Aug. 6, 1962.
 The Editor,
 The Lindsay Post.

Dear Sir:
 May I have space in your paper for a note regarding the arena?

I understand the arena was built by the Kiwanis Club some 12 years ago. It has been tried to manage same for two or three years and when they they approached Town Council and had the arena taken over by the town.

This was some 20 years ago, and as everybody knows, this has been a "White Elephant" which the taxpayer has had to keep.

During the years alterations and repairs have been many and quite and now a complete reconstruction is necessary.

When this is completed there will be little left of the original. This is all being done at the expense of the town, and as I and many others, think the party paying the piper has the right to call the tune.

Thanks for the space,
 One Taxpayer.

Chatterbox

— by Millicent —

LEATHER HANDS MAKE the same style leather bag in the same dimension. This fashion geometry is a fashionable, subject this fall as leather handbags take every shape known to woman.

Seen at a fall fashion preview presented in New York City by the leather industry was a collection of squares, rectangles, circles, ears and trapezoids. The leather textures were and more leather colors. Rounding out the picture were smooth and handsomely grained leather bags with soft to the fashion keen-pouches and barrels in daytime, evening and special bags.

Among the most popular are handbags of smooth and grained leather, antiques and leather, suede and brushed leather. Reptile was worn, usually in trim, while gold and silver leather will be available for evening wear. All bags carried the distinctive "black-and-gold" "Genuine Leather" tags that spell quality on any size shape.

One of the new developments this year is the creation

At Rest

SPENCE, Robert E. At the Rest Memorial Home on Tuesday, Aug. 27th, 1962, Robert E. Spence in his 90th year, beloved husband of Catherine Campbell, 59th year, died at his home, 1000 Ronto and the late Mary Jane and dear brother of Agnes (Mrs. George Cotton) of Toronto. Birth Notice

GRANT — Don and Mary Grant (nee Macdonald) wish to announce the arrival of their son Barry Donald on Monday, July 30th, at the Rest Memorial Hospital. (23627)

Cards of Thanks

The Lindsay Kinnes Band and Parents Association wish to extend sincere thanks to everyone who contributed in any way whatsoever towards making our trip to the Calgary Stampede in July such a great success. — C. W. Jefferson, Band President. (19529)

McGILL — We wish to thank our relatives, neighbours and friends for all their gifts and best wishes. Many thanks — Harvey and Bertha McGill. (23546)

McMILLAN — I wish to express my sincere thanks to friends for cards and welcome visits. Special thanks to Dr. Hall, nurses and staff of 2nd floor, Rev. Mr. Bell of Penzance, Miss Frances O'Reilly, Mr. and Mrs. Gordon Sweetman and Mrs. Healey of Wellfield. Thank you all. — Lorena McMILLAN. (19514)

BUDD — My sincere thanks to friends and relatives for their lovely cards, gifts and visits while I was in the hospital. Special thanks to Drs. Harris and Anderson, Martineau, the nurses and staff of the Rest Memorial Home. Also to all who helped at home while I was away. To all Thank you. — Lola Budd. (19514)

Engagements

Mr. and Mrs. Aubrey R. Warner announce the forthcoming marriage of their daughter Florence Dorothy to Robert Miller Shields of Kingston, on Col. and Mrs. E. Miller Shields of Lindsay at two-thirty o'clock on Saturday, September 1st, 1962, in Cambridge, St. United Church, Lindsay, Ontario. (23520)

Mr. and Mrs. Elmer Workman, Cambridge, wish to announce the engagement of their daughter Barbara Jean to Mr. Samuel Peter Spence of London, on Monday, August 12th, 1962, at 4 o'clock in Woodville United Church, London. (23510)

The announced engagement of Miss Doris E. Watson and Gary C. Houch is announced. The wedding ceremony will take place in the Trinity United Church, Uxbridge, Ontario, Saturday, August 24th, at 2 p.m. The bride is the daughter of Mr. and Mrs. Orval Watson of Little Britain. Her fiancé is the son of Mr. and Mrs. Miles (Ted) Houch of Uxbridge. (23465)

Engagements

Mr. and Mrs. Joseph Henry Carley, Lindsay, wish to announce the engagement of their daughter Mary Patricia to Sherman George Westington, son of Mr. and Mrs. Lorne Griffin, West Gullford. The wedding to take place Saturday, September 1st, 1962 at 2 p.m. St. Andrew's Presbyterian Church, Lindsay. (23500)

In Memoriam

WESTERN — In loving memory of my dear husband Wm. George Westman, who passed away Aug. 6, 1961. With my heart I'll always keep.

A special place for you And try to do my best to live As you would want me to. It's sad to walk the road alone Instead of side by side. When the days of life divide You gave me years of happiness.

These moments sorrow and tears That you left me so beautiful moments I will treasure throughout the years.

Sadly missed by wife Mary. (23523)

WESTERN — In loving memory of our dear father Wm. George Westman, who passed away Aug. 6, 1961.

In tears we saw you sinking Into the lake fade away. Our hearts were almost broken.

You fought so hard to die But when we saw you sleeping So peacefully free from pain We know that you're back. To suffer that again.

Ever lovingly remembered by Evelyn, Reenie and Kathleen. (23529)

MCKENZIE — In loving memory of our dear mother who passed away Aug. 14, 1949. She has gone across the river To the shore of ever green And we long to see her dear face.

But the river flows between Some day, some time, we shall see.

The face we loved so well Some day we'll clasp her loving hand And never say farewell.

—The McKenize Family. (19530)

PERSONALS

The relatives and friends from a distance who attended the funeral of the late Mrs. Arthur D. Stewart, of Mrs. Walker Stewart, of Toronto, Mr. and Mrs. R. Mrs. Jane Earle

Mrs. Jane Earle, 80, widow of the late Dr. George Earle, passed away at Guelph on Friday, July 27th.

The former Jane Belle Potts daughter of the late Edmund and Margaret Potts, she was born and educated in Adrian, Michigan, and taught in schools there before her marriage in July 1910.

She had resided in Omemee 52 years.

She was a charter member of Eastern Star Lodge, Lindsay and a past Worthy Matron and before her marriage was Worthy Matron of the Adrian Lodge. She was a member of Omemee School Board, Trinity United Church and during the Second World War was president of the Soldiers' Aid group in Omemee. Her hobbies were reading and flowers.

She is survived by one daughter, Mrs. Wendell McNea (Jane) of Guelph, and four grandchildren.

She was predeceased by her son, Dr. William Earle three weeks ago and her husband seven years ago.

Funeral service was held from the residence of her daughter-in-law on July 30th, with Rev. Kenneth Crawford of Trinity United Church conducting the service. A large assembly of citizens from Omemee and Emily paid their respects to a family who had ministered to the needs of hundreds of rural folk over a period of many years.

Palisades were Albert Carroll, David Deyell, Charles Stephenson, Harry Jackson, Clifford Williamson, Carus Lee.

Interment in the family plot at Emily Cemetery.

NOTICED

Murray got the surprise of his life and other fishermen in the area said they had never seen a fish like it. Looking it up in a fish reference book, Murray says he found out the Long-nosed Gar is really a throw-back from the Dinosaurs age. It related when most of the fish known today where unknown. It grows to a length of five feet and is a relative of the Alligator-Gar, native to southern waters which grows to a length of 12 feet. He took some pictures of his catch and these will appear in a subsequent edition of "The Post".

A telephone call this morning from an unknown person is also related to nature in some respects. According to the caller, a person who is all for preventing forest fires isn't so sure they shouldn't now concentrate on preventing trailer fires. It seems the party in question tossed a cigarette out of a car window and accidentally set a trailer on fire.

The last item in this budget is by no means least and certainly not in the eyes of this boy who made it possible.

This red and black flower brocade covered dress, which has its own matching jacket, is from the fall collection of Bonora. The shoulders are just covered with lacy cap sleeves and the skirt has a front pleated fold.

Parking one side only anti-hazard ruling

Parking will be allowed on one side only of Albert St. from Russell to Peel St. This was the decision of Lindsay's Council Tuesday to relieve traffic hazard by double parking in this area.

It was moved by police committee chairman Robert Payne that parking be prohibited on both sides of Albert St. from Russell to Peel St., pending a Department of Transport report on the need of traffic lights at the Kent St. intersection. Prohibitive parking would take care of traffic hazard before word of street widening is heard.

Councillor Les. Noll stated there were four factors in that vicinity and he would amend Mr. Payne's motion by suggesting parking be allowed on one side of the block north and south of Kent St.

SEVERE STORM HITS DALRYMPLE

Dalrymple (PNS) — A severe electrical storm struck here last Saturday night. The lightning was off for several hours and many phones dead. The only home which received much damage was that of Mr. and Mrs. S. Fox, where lightning did damage to several electrical outlets and started a fire at the phone when the wires became to burn. Luckily they were at home and quickly extinguished the blaze. Tiles on the floor were lifted and other lesser damage done. Mr. Art Kennedy also had a motor in his meat counter put out of commission as well as some blenders blown out.

Return petition for revision

A petition for the paving of the street and installation of a sidewalk on the south side of Regent St. from Albert to Adelaide will be sent back to the petitioners for revision. It was pointed out at the first Annual meeting of Town Council that such project required a separate petition and that the former petition was insufficiently signed.

Clerk Bates stated three names of property owners on the north side were needed for the road paving.

Reeve Lloyd Pound: "It seems to me the doctors would be well advised to put in their own private parking lots here and I think the chief of police might indicate that to them."

Councillor Payne observed that snow in the winter made a traffic problem at this point and said he noticed in other communities parking was disallowed on both sides of streets. "The Department of Transport survey recommends no parking here. Parking presents a serious and expensive problem which we have got to wake up and face. There are dozens of other places in town such as near the Cambridge Street United Church, where parking creates a hazard. In parking on one side. It is not easy to pass in winter on Bond St. between William and Victoria Ave."

Council decided the police chief should study this matter as to whether parking should be prohibited on one or both sides of the street here.

Councillor Hutton: "The area mentioned on Bond St. as a hazard was from William to Cambridge St. not the church area. Bell Telephone employees are parking their cars on the street and not using the company lot."

It was decided to try parking on one side of Albert St. one block north and south of Kent, to see if the traffic hazard was relieved there.

ANNOUNCEMENT

Canington Block have arranged to supply plain Vibracore Concrete Blocks from a former Machine and by their hydraulic boom, place them in basements or on 2nd floor.

We make 2 patterns of Rock face blocks, and chaser blocks and will take orders for anyone wanting well tiled walk slabs, steps, treads, patio slabs, concrete porch steps and brick, etc.

On account of a miscommunication, your phone number is under name of Lake Simcoe Block, 422-2623 and after hours phone No. should be 423-2468.

Canada's Young Musicians Delight Symphonic World National Youth Orchestra in Summer Session

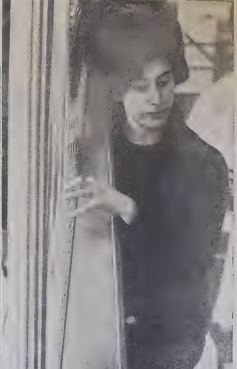

Jordan Michalski, 16, Kingston, Ontario. Orchestra is often 100-members strong.

One hundred talented, young musicians are spending their summer vacations hard at work with Canada's National Youth Orchestra. From across the nation they are assembling in Toronto for 10 days of rehearsal prior to giving concerts in Buffalo, New York (August 15), St. Catharines, Ontario (August 16), and at Stratford's summer festival (August 19). Now in its third year, the National Youth Orchestra Association of Canada was initiated in 1940 by Walter Susskind, internationally famous conductor, who had previous experience with Great Britain's National Youth Orchestra. To qualify, members must be between 14 and 21 years, have proven musical talent. Through the National Youth Orchestra, young Canadian musicians learn to play in a symphony orchestra under professional conditions, thus assuring a supply of first-class instrumentalists for tomorrow's national symphony orchestras. Already, after sparkling concerts in three past sessions, they have won the acclamation of music critics in Toronto, Montreal, Ottawa and Stratford, have learned to share their art under the baton's magic influence, have captured music lovers with their youthful, eager zeal and polished performances. Playing under such well-known conductors as Wilfrid Pelletier and Victor Feldbrill, they have demonstrated that young people can bring a refreshing breeze of excitement and vitality to the sophisticated world of serious music, promise a bright future for Canada's symphony orchestra.

National Film Board of Canada Photos

Maestro Wilfrid Pelletier conducts during winter session in Ottawa. Members' ages range from 14 to 21 years.

Alague Morris, harpist, is from Montreal.

Bassoonist André Maillois, 18, from Baie St. Paul, Quebec.

Rehearsal at University of Montreal, New Year's, 1962.

Concerts this summer include August 19 appearance at

Stratford Festival — where orchestra's first meeting took

place in 1940.

THIS WE KNOW!

Price alone will not sell good for the Independent Merchant. SERVICE is imperative - for example if you take your car into a garage you prefer an experienced factory-trained mechanic to tell you what's wrong - equally so, with a man selecting what he "thinks" he should wear—he could pick a white bow with a tuxedo—and a grocery clerk might even tell it to him—at it's point the specialty shop MEN who apply themselves have something to sell - that Discount Houses cannot compete or hope to gain the patronage of the man, professional or otherwise, that chooses to wear something different, that denotes his individuality or gives him that Well Dressed Look.

KNOW WHAT YOU'RE SELLING might be good advice to merchants in general, especially those handling consumer goods.

Marlene Elizabeth Sedgwick wed in St. John's Church, Geleert

St. John's Anglican Church, Geleert, was decorated with gladioli and chrysanthemums on the altar for the wedding of Marlene Elizabeth Sedgwick and Ronald Robert McEwan, both of Geleert. The bride is the daughter of Mr. and Mrs. Lloyd Sedgwick and the groom is the son of Mr. and Mrs. Ronald McEwan. All reside in Geleert.

Rev. Thos. Grace officiated. The priest was Betty Barnum of Hillborton and the song "O Perfect Love" and "The Wedding Prayer" was sung by the choir. The wedding was accompanied by Bill Giddens, also of Hillborton.

Given in marriage by her father, the bride looked charming in a model design princess style gown of blue lace over satin. The bouffant skirt featured tiers of net on the sides and the blue bolero had long bill with point sleeves. Her matching headpiece held her shoulder-length veil and she carried a bouquet of red tea roses and stephanotis.

The matron-of-honor was Mrs. Ruth Sedgwick, sister-in-law of the bride. Daisies and the bridesmaid was Margaret McEwan of Geleert. The matron-of-honor was

Vancouver quads first feeding

The quadruplets of Vancouver received their first feeding over the weekend and a hospital spokesman says the quads will likely leave the incubator today.

One received extra oxygen over the weekend. The Vancouver General Hospital's pediatrician, says the quads should be home by the end of the month. The four children, two boys and two girls were born to Mrs. Ruth Becker, last Friday.

Who's hoo'

Two girls in Belmont, California, couldn't tell one bird from another.

Barbara Druellas and Bobbi Peters were driving along a city street when they were startled by a fluttering of wings in their car. They fled the vehicle - "I didn't even passing patrolman and cried, "There's a bat in our car!"

The patrolman shined his flashlight into the car. "What?" he asked. And a baby owl perched on the front seat replied, "Hoo?"

Gard Party

Kinnmont (PNS) - The Guild of St. James' Church were hostesses for a card party in the Township Hall, The Ladies high score went to Mrs. Moss Schell with 71 points. Walter Duff was high for the men with 72 points. Mr. and Mrs. James Simpson were the Consolation prize winners.

The prizes were donated by Mrs. James Wallace.

Charles Whitfield

The death occurred at the Ross Memorial Hospital, in Lindsay, on June 14, 1983, of Mr. Charles Whitfield, 61, who in his 75th year and had been in ill health for some time.

Mr. Whitfield was born in London, England, a son of the late Walter and Jane Whitfield. On December 20th, 1913, he was married in Woodville to Winifred Crawford and farmed in that area until coming to Cannington to reside.

Mr. Whitfield is survived by his widow and one daughter, Kathleen, Mrs. S. L. Wood, of Mantle. Also survive is one brother, Walter Whitfield of Woodville.

Rev. C. B. Wragge conducted the funeral service in the Summerford Funeral Chapel on June 21th. Interment was made in Cedar Vale Cemetery with Misses Charles Campbell, Wilmet Miller, Peter Forbes, Pat Sault, Charlene Budd, and Joan Sanderson acting as pallbearers.

Among the relatives and the friends attending the funeral were Mr. and Mrs. A. Zicker, of Smithville, Mr. and Mrs. Arnold Dave, of Hanson, Mrs. Robert Dobson, of Toronto and Mrs. Gordon Eckersley, of Woodville.

LIFE EXPECTANCY HIGH IN ISRAEL

Israel has one of the world's highest life expectancy - 78.7 years for men, 75.5 for women. This has been revealed by the Israel Office of Information in New York. The only other countries in which men as well as women have a life expectancy of over 70 are Holland, Norway and Sweden.

Margaret T. Allen

On July 10, 1982 friends, neighbours and relatives lost a most respected and devoted citizen of Kinnmont district. The deceased was Mrs. Margaret Teresa Allen, who entered into rest at the Hillcrest Nursing Home, Robinson. She was in her 85th year and was the daughter of the late Robert J. Allen who predeceased her 24 years ago.

Although she had been in ill health for over a year her death came as a great shock. She was a devoted member of the Roman Catholic Church and a life member of the Catholic Women's League.

She leaves to mourn her loss five daughters and four sons: Mary, Mrs. Percy Clarke, Mrs. S. W. Lindsay, was treated as an outpatient at the Ross Memorial Hospital on Saturday around 9 a.m. following an accident in which she was a passenger in a taxi.

Police say that the driver of the taxi, Mel Mountgomery, was driving east on Kent St. when it was struck from behind by a milk truck driven by Paul Allan of Durham St. W. Lindsay, 36, was killed.

Damage to both vehicles is estimated at about \$500.

Constable Gordon Dawson investigated.

Also one daughter Veronica and a son William predeceased. She also leaves to mourn her loss 36 grandchildren and 24 great grandchildren.

The pallbearers were three grandchildren, Paul Allen, Robert Allen, Bill Clarke, Larry Chinnard, Philip Schumacher and Robert Schumacher.

Five of her grandchildren were altar boys. Ralph Allen, also Philip Allen, Larry Allen, Robert Allen and Terry Allen, of Lakeside, Ralph and Philip Allen served the funeral mass.

The funeral left her home residence to St. Patrick's Church for Requiem Mass at 9:30 a.m. July 12th. Rev. Patrick's Cemetery, Kinnmont.

Euchre Party held in hall

Kinnmont (PNS) - A progressive Euchre Party was held in the Township Hall with six tables in progress, when the score cards were called. Mrs. Vera Phillips was high for the ladies with 82 points. Mr. I. Keeds from Burnt River was high for the men with 72 points.

The consolation prize went to Gwen Swinson with 30 points and Hugh Phillips with 47 points. An enjoyable evening was spent by all.

Taxi struck from behind

Mrs. M. Goodhand, of Glen Kinnmont, (Katherine) Mrs. S. W. Lindsay, was treated as an outpatient at the Ross Memorial Hospital on Saturday around 9 a.m. following an accident in which she was a passenger in a taxi.

Police say that the driver of the taxi, Mel Mountgomery, was driving east on Kent St. when it was struck from behind by a milk truck driven by Paul Allan of Durham St. W. Lindsay, 36, was killed.

Damage to both vehicles is estimated at about \$500.

Constable Gordon Dawson investigated.

High heels can kill!

"My foot slipped off the with non-skid or ridged sole brake pedal." This was the only reason given for the fatal accident, offered by a young woman whose car killed a young bystander. On her way to a luncheon, who was apparently driven, right down her smooth-soled, high-heeled shoes. Had she taken the old-fashioned precaution of changing to shoes with non-skid or ridged soles 60 years of human life might have been spared.

Canadian shoe manufacturers devote considerable thought to the design of every shoe on the market, but the exact function of the design he producer. Shoes for long standing or walking must have a main feature: sturdy construction, durable and practical materials and they must provide even distribution of body weight over the foot. On the other hand, an "after 5" shoe with high heels is meant, to create an effect of glamour and elegance. With a high-heeled shoe, the body weight is projected forward on the foot. The heel is the pivot point. High heel shoes are worn for short periods of time on special occasions. Shoes suited for recreation, sports, gardening and other summer pursuits are designed with safety factor in mind. Minimum heel heights, avoid tripping on uneven terrain, non-skid or ridged soles top, allow faster movement and quicker steps.

Pliable materials give freer movement. "The right shoe for the occasion" is a wise policy, claims the Rubber Association of Canada, and it Highway 121, around 8:30 p.m. became fatal to assume that a car, a late model, was a suitable, flat or wedge shoe a complete wreck.

Mr. John Sasnow spent a day at Toronto on business.

Cars wrecked, girls escape serious harm

Sean Smith, 21, of Toronto, was released from the Red Cross hospital at Minden after being injured Saturday night following a collision with a car from head leucations and a dislocated shoulder, following a car accident in which the car was driving west on control, turning over on its side.

A passenger in the car Shirley Reeves, 20, also of Toronto, was treated for minor lacerations and released.

The accident happened at the intersection of Highway 121, around 8:30 p.m. became fatal to assume that a car, a late model, was a suitable, flat or wedge shoe a complete wreck.

Fractures back swimming

Douglas Williams, of Ottawa, Horsehoe Lake, while swimming was treated in Ross Memorial Hospital for a fractured leg, back, following an accident on

Hospital authorities report his condition as satisfactory.

Struck by car outside home

Stephen Doyle, six-year-old son of Mrs. Nancy Doyle, 330 Queen St. W. Lindsay, was struck by a car, outside his home on Friday about 5:30 p.m. and taken to Ross Memorial Hospital for observation.

Lindsay police say that James Kirley of Downsview was the driver of the car.

The accident was investigated by Gordon Dawson.

Henry Thoreau, the American essayist, said: "Nothing is so much to be feared as fear."

Camping in Canada Up Tenfold in 10 Years

By Lake and Stream the Campfires Glow

More than a million back-to-nature Canadians are taking camping vacations this summer. Some will explore backcountry areas, portage their canoe, camp where silent trees grow tall. Most will travel family style, stopping at established campsites in every province, visiting Canada's national and provincial parks. Canada's parkland - 89,000 square miles and equal in size to Great Britain - is set aside for its scenic beauty, natural grandeur.

In the family car, campers can travel highways, adventure along twisting woodland trails, come to rest in cool clearings amid scattered pine and whispering birch. In lake shores, by stream banks, in inland forests and by the sea, holidaying campers pitch tents, cook over wood fires, and feel the fresh air and solitude that beckoned their forefathers a century ago.

Quebec vacationers revel in fresh air, water, summer sunshine. From Newfoundland to the Yukon, 1,000,000 Canadians will "get back to nature" on camping holidays.

For adventures, camps there are wilderness byways to be explored, long canoe routes to paddle.

In British Columbia, baby gets a first taste of camping. In national parks camping has increased 10 times in a my years.

Sunset over Prince Edward Island beach is signal for tent lights to go on as campers relax after day of touring.

THE WONDER OF MODERN SURGERY

One evening last week, after dinner at the home friends, I met an internist from Chicago. As so often happens, when doctors get together, we were soon hunched over in shop talk. Each of us, having been in practice over 25 years, recalled the advances in diagnosis and treatment that medicine had made. Electrocardiograms in heart management, antibiotics in the treatment of infection, and many more. Nevertheless, least, although being internists, we did not forget the tremendous improvements and innovations in modern surgery.

We were both aware of the operations for removal of an aneurysm of the brain, which heart surgeons repair heart valves with which they replace damaged arteries. "And have you heard of the recent work in brain surgery in which they're now putting a plastic jacket around aneurysms?" he said.

I had just read about it in the *Journal of the American Medical Association*. I think it they must become, if they can, the hope of a large number of the patients who work came out of the Institute.

By Peter J. Steinhorn, M.D., F.A.C.P.

of Medical Research and the recent report of their work, decided to reinforce the thinned out artery by applying around the weak artery some plastic material which hardened with in minutes of application. They reported three patients upon which this procedure was used, Let me summarize Case No. 3. A 45-year-old woman experienced sharp pain in the back of the head and neck while sitting at her desk. This was followed by a severe headache, dull, aching discomfort. By the following morning stiffness and aching extended down the entire back. She began to have other symptoms of weakness. A lumbar puncture showed gross bloody fluid. An angiography showed that a large aneurysm in an artery of the brain. Using the help of hypothermia, cooling in this instance. Now, with the aid of the brain they operated and applied the plastic material into the blood which formed a protective vessel that outlines the arteries within a few minutes.

The patient had an uneventful, post-operative course. Two months later she returned at least be aware of the enemy led to her normal teaching routine. She is a college professor. The doctors who issued this

STOP!...killing yourself

By Peter J. Stelarcovich, M.D., F.A.C.P.

HEARTBURN

Dear Dr. Stelarcovich: I sure would like you to tell me what I can do to get rid of heartburn. I have been suffering with it for three years and it has been getting worse all the time. I haven't been to my doctor in over a year. The heartburn seems to come on only when I walk. After I rest for a few minutes it goes away. The lump under my chest seems to melt away with rest. What do you advise?—Mr. R.

Comment: I would advise you to rule out trouble in the stomach or throat. If I stop exerting, it goes away. When I check on your heart. If I had just one choice of investigations to rule out trouble in the stomach or throat, I'd want to take a series of electrocardiograms to rule out angina pectoris.

I recall many angina patients who were actually complaining of pain, but of heartburn on exertion. The fact that you have your discomfort only after walking makes me suspicious. But this is only "supposing." I suggest you put yourself in the hands of your doctor, who will probably

order electrocardiograms and, daily if you have high blood pressure) I would suggest a complete heart check-up to rule out angina pectoris.

HEARTBURN, AGAIN

Dear Dr. Stelarcovich: Would you like to advise me about a condition that's bothered me only once a year. Any time that I use my arms in a vigorous way, like washing windows, cleaning over a stove or digging, I have heartburn. Comment: I have heartburn. It doesn't extend up into the throat. If I stop exerting, it goes away. When I check on your heart. If I had just one choice of investigations to rule out trouble in the stomach or throat, I'd want to take a series of electrocardiograms to rule out angina pectoris.

I recall many angina patients who were actually complaining of pain, but of heartburn on exertion. The fact that you have your discomfort only after walking makes me suspicious. But this is only "supposing." I suggest you put yourself in the hands of your doctor, who will probably

Dear Dr. Stelarcovich: My lips have been peeling for some time. For quite a few weeks I've had a sore on my lower lip. I've applied different ointments, vaseline and others. It doesn't seem to get any worse, but doesn't heal. Do you think the sore should be seen by a doctor?—Mr. C.

Comment: Now's the time. Don't procrastinate any longer. From what you have been describing and treating, I suppose you know that the most important thing to rule out is cancer. It may not be, but don't guess if it is. Modern treatment is very effective in early cancer.

For Mrs. A.: Chlorine in drinking water is not a cause of thyroid trouble. Absence of iodine may be.

For Mrs. F.: Tranquilizers can be taken for many months

LOSING PROPOSITION

A stockbroker in London says he is going to swap his 200-million dollar year job for one calling for 42-dollars a week.

Simon Lapp says that after taxes are taken out, he clears only 54-million dollars—and that isn't enough to cover his expenses.

Ladd did not say how he fits the day. A transaction would add up to more than the 54-million he now gets after deducting taxes.

"without poisoning your system." Your doctor, as supervisor, will know when to decrease the dose—or stop the tranquilizers altogether.

For Mrs. L.: A GI (gastrointestinal) system is an X-ray study of the stomach and intestines. If there is a question of gall bladder trouble, your doctor will also order a "gall bladder visualization"—which is an X-ray to determine the presence of stones or a non-functioning gall bladder.

EDITORIAL

IT'S ALMOST CARNIVAL TIME!

It's almost carnival time—Kinsmen Carnival time, that is!

While Lindsay, like most towns of its size has its share of annual parades, it differs in one respect—it has one king-size parade each year which has become traditional. For more than a decade now the people have been flocking to see the Kinsmen Kinsmen parade and each year it seems to draw more and more enthusiastic participants. This year, it will be no exception but the parade itself may well turn out to be exceptional. At least it will have an entirely different theme—Westerns—inspired by the Kinsmen Band's appearance in the Calgary Stampede.

One of the Kinsmen Club's most successful projects, the band has won friends far and wide, for the club and certainly the town. It alone will attract hundreds of people to the parade route on Friday evening. But Westerns theme promises to be even more interesting. It could be drummed up into something really spectacular if approached from the standpoint of a "take off" on the Calgary Stampede.

Let's get out there Friday night and see the Kinsmen Carnival parade as it goes Westerns . . .

Reports and Remarks...

WORKER WITH-HIKES

190 MILES DAILY

Leslie Hillcoat, 49-year-old plant worker for the British Royal Corporation, is a commuter on the grand scale. His round trip from home to factory and back again is 180 miles, and he hike-bikes all the way.

Family health problems forced Hillcoat to move from his Longbridge Birmingham, home to Newport, in Wales, seven years ago, with his wife and child. He left B.M.C. and took up employment locally. But the work did not suit him, and he decided, three years ago, to go back to the Longbridge works, some 90 miles away.

Three days a week Hillcoat leaves home at 4:15 a.m., and arrives at Longbridge in good time for work. He leaves the factory in the evening with the other workmen and arrives back home between 8 and 10 p.m.

A well-known figure to many road users who help him along his route, Hillcoat has covered over 135,000 miles in three years—will over five times the circumference of the Equator.

—International News Service

Remember way back when

August 15, 1912

Pension Pals celebrated Clio Holiday yesterday when a celebration was held that attracted a big crowd from outside points. There were aquatic events and athletic sports during the day, as well as a baseball tournament. Woodville defeated Kirkfield and Cannington won from Woodville. A large number from Lindsay took in the event.

Non Day Drive

At noon today a fire broke out at the kitchen roof of Geo. Duke's residence, corner of Adelaide and Durham Sts. A bucket brigade consisting of some of the neighbors extinguished the blaze, but not before a hole was burned in the roof.

Trip to Cobcock

The steamer Linton will make a special trip to Cobcock tomorrow. The boat leaves the wharf at 9:30 and the fare will be 50c.

AUGUST 15, 1937

The new improved race track at the Lindsay Fair Grounds, along with increased purse has proven an incentive for the fastest horses in the province to be present for the racing during the Lindsay Central Exhibition. A great deal of money has been spent on improvements to the grounds and not a little of this expenditure has been centred on improvements to the track.

With the result that the race course at the Lindsay grounds attracts favourably with that of any other grounds in the province. Entries have not been received for the race as yet although reports are to the effect that Mrs. Bert Rowe will be on hand with his own horse. The conversation amongst racing men of the district, however, indicates that entries will be very large, horse very fast, and the races amongst the finest ever held here.

A LOVELIER YOU

By MARY SUE MILLER

THE WELL TO LIFE. When it comes to reducing diet, this is evidence that the well-to-do are not as healthy as we would like them to be. Many women try to diet, but in preparation leave alone with it.

Why are you kids weaker-will? As it has been always suggested, is the male really the value? As a bit of self-control comes to be understood at a dining table.

Pride in appearance—the overall appearance—resides in the body line and posture. Consequently, during a diet regimen, it would be a mistake to let the nervous appetite and to tone the skin, being drained of fatty support.

Make a ceremony of your daily bath. Use the cream of milk, fragrance and skin lotion. Such baths not only give you a pampered feeling, but they are especially beneficial in reducing periods. For they help to soothe the nervous appetite and to tone the skin, being drained of fatty support.

Keep your hair, makeup and makeup looking good. Your hair should be washed and styled with care. Your hair should be washed and styled with care. Your hair should be washed and styled with care.

Wash your face, wash your face, wash your face. Wash your face, wash your face, wash your face. Wash your face, wash your face, wash your face.

Wick WMS

Sunderland (PNS) — The Stainson Plant 72 was sung and the Bible Lesson read by Mrs. Cook. Mrs. Cook then sang and the interesting commentary on the chapters "The Necessity of Faith," Miss Mildred Beaton led in prayer and hymn 523 was sung.

The offering was taken and dedicated and Roll Call answered with a Scripture verse.

The Secretary and Treasurer reports were read and approved. It was decided to hold a social evening, August 17th.

Miss Sheila Ferguson gave a beautiful piano solo, variations of "Son of My Soul".

The topic was under the leadership of Dave Clark of the Church of Mrs. Everett Hopper and Mrs. Clarence Stanton dealing with prayer by Mrs. Cook.

— by Millicent —

POTATOES STILL A FAVORITE VEGETABLE
Almost everyone eats potatoes at least once a day, and every once in a while, old traditions, Gospel, recommend plunging scrubbed new potatoes into a medium amount of salted boiling water. Cook covered until tender, leaving the skins on to preserve full

vitamin and flavor content. The skins will slip off easily after cooking. Serve whole, with a generous pat of butter, some potatoes just naturally seem to taste better. At this time of year, the difference in potato is, of course, the difference between the "new" potato and the stored "old" potato.

The most popular method of cooking the potato is boiling. Food experts at Macdonald Institute, Gospel, recommend plunging scrubbed new potatoes into a medium amount of salted boiling water. Cook covered until tender, leaving the skins on to preserve full

vitamin and flavor content. The skins will slip off easily after cooking. Serve whole, with a generous pat of butter, some potatoes just naturally seem to taste better. At this time of year, the difference in potato is, of course, the difference between the "new" potato and the stored "old" potato.

HOUSEHOLD SCRAPBOOK
Paraffin On Jolly
Before putting paraffin into glass of freshly-made jelly, stretch a small piece of string across the glass, then slowly pour in the paraffin so the string is embedded. Then later, to lift the paraffin out, cut in one place, simply pull upward on the ends of the string.

Floating Flowers
When making a floating flower arrangement, insert the stems of each flower through a disc of waxed paper cut to the size of the blossom. The blossoms will float because the waxed ends will protect them from the water.

Storing Stamps
To prevent new postage stamps from sticking to one another when stored, place them in packets made from waxed paper stapled together.

CAUTION!
DO-IT-YOURSELF FANS...

don't wash your nice summer cotters!

Sanitone's cotton clinic™

Keep them flower-fresh and immaculate with

Sanitone's cotton clinic™

Now the originators of famous Sanitone Dry Cleaning have developed another great blessing for American housewives. Announcements

Cards of Thanks

BOYNTON — The family of the late Joe J. Boynton with thanks their neighbors and friends for the many kindnesses, cards, food and flowers tendered during our recent bereavement in the loss of a loved husband and father. Special thanks to Mr. and Mrs. R. K. Rooney and Chas. Stodart. (23810)

COPPIN — I want to thank the nurses and staff, also Dr. Metcalf and Lindsay, also the Lindsay Antenna for their kind and helpful assistance in the hospital, also for the cards, letters and flowers I received. Mrs. J. Coppin. (23800)

MAYER — We wish to acknowledge with thanks and deep appreciation the kindness of friends and neighbors, and the generous contribution to the Ontario Heart Foundation, at the time of the passing of a beloved husband and father. Garret Mayer and family. (23719)

OWEN — I wish to thank my many friends that were so kind in making inquiries, visiting me, also who sent cards, fruit, treats, money and gifts. A special thanks to Dr. Black, well nurses and staff for their wonderful care given me during my recent stay in the children's ward of Ross Memorial Hospital. Thank You Mr. A. Sharpe Owen. (23800)

SPENCE — The family of the late Robert E. Spence wish to extend our sincere thanks and appreciation to our many relatives, friends and neighbors for the many acts of kindness, expressions of sympathy and floral tributes during our illness and recent sad bereavement in the loss of a loving husband, son and brother. Our special thanks to attending doctors, nurses and staff of the Ross Memorial Hospital. Rev. J. F. Lane, Rev. W. R. Reid, for their counseling services. The Mackay Funeral Home for their kind and efficient service. (23740)

Ward — Thank you nurses of the Ross Memorial Hospital Wing for making my stay in hospital very pleasant and comfortable. Mrs. Cramer and Anderson, also to friends and neighbors for their kindness, of Hartley, Cambray and Woodville. (23800)

Engagements

Mr. and Mrs. Ernest R. Corley announce the engagement of their daughter, Ernestine, daughter of the late Mr. and Mrs. William G. Johnston, of Lindsay. The marriage will take place Saturday, September 1, 1962, at 10 o'clock in Cambridge Street Church. (23814)

Mr. and Mrs. Brock Black announce the engagement of their daughter Frances Margaret to Mr. Norman Gregory Padgett, son of Mr. and Mrs. Robert Padgett, of Lindsay. Wedding to take place in All Saints' Anglican Church, Lindsay, September 15, 1962 at 3 p.m. (23767)

Mr. and Mrs. Frank D. Roche, Lindsay, wish to announce the engagement of their daughter Margaret to their eldest daughter, Elizabeth Mary, Reg. N. to James Robert, son of Mr. and Mrs. George Rutherford, Peterborough. The marriage will take place on Monday, September 3rd, 1962 at eleven-thirty o'clock in Saint Mary's Roman Catholic Church, Lindsay. (23772)

In Memoriam

KAY — In loving memory of a dear mother, Pearl Kay, who passed away August 19, 1958. We who loved you sadly miss you.

As it draws another year, in our lonely hours of thinking. Thoughts of you are ever near, ever remembered by the family. (23743)

THE POST, LINDSAY, ONTARIO, WEDNESDAY, AUGUST 15TH, 1962

In Memoriam

CLARK, Floyd, Ernest - In loving memory of our dear son, who passed away Aug. 14, 1958. Memories are treasures No one can steal Death is a heartache nothing can heal. Some may forget you now you are gone But I shall remember, no matter how long.

Ever remembered by his Mother, Father, sister Marie. (238124)

McMILLAN — In loving memory of our dear sister Mary, who passed away Aug. 13th, 1960. Like falling leaves the years slip by But love and memories never die.

Ever remembered by sister Elizabeth, Brothers John and Will Thornberry. (238120)

MOOSE — In loving memory of a dear husband Norman J. Moose, who passed away August 10, 1957, also daughter Beatrice Norma Moose who passed away October 14th, 1958. Lovingly remembered by wife and family. (23709)

JACOBS — In loving and cherished memory of Norman Jacobs, who passed away August 20th, 1961. Memories in the heart to hold More than any words can say. Lovingly and ever remembered by Anne. (23382)

Estimated 300 youngsters at 'playground picnic'

An estimated 300 children had a picnic this afternoon right here in Lindsay. They flocked to Victoria Park to take part in a season's first get-together of the town's five playgrounds, respectively re-opened.

The program, starting at 2 p.m., featured games and races arranged by playground supervisors, assisted by members of the recreation commission.

Chocolate milk and ice cream were provided at tables during the activities and the afternoon sports are being climaxed by a picnic picnic supper at 8:30 p.m.

British bells ring round the world

A set of ten bells, the largest weighing 18 cwt., was receiving a final tune-up in a U.K. factory last week before being shipped in September to the chapel at America's exclusive Groton School in Massachusetts, where President Kennedy studied for a time.

With completion of the order at the Whitechapel Bell Foundry, established in London's East End since 1790, casting will begin on another ten-bell set which will be hung next year in the bell tower of U.S.A.'s famed Washington Cathedral, under construction since 1907.

"British bells are in great demand in America because there is no belmating country there," says Mr. A. A. Hughes, managing director of the firm "Since World War II, when Americans became interested in bellringing, there has been a growing call for British musical handbells. Sets of between 20 and 60 bells are dispatched at the rate of one a week, but despite this we have a two years' waiting list. Whitechapel bells include the most famous in the world: in London, Big Ben, St. Paul's Big Tom, Bow Bells, Westminster Abbey, the "Oranges and Lemons" bells at St. Clement Church, also Liverpool Cathedral. America's Liberty Bell was originally cast at Whitechapel in 1753. On July 4, 1776, it proclaimed the Declaration of Independence. Bells made by the ancient firm from copper and tin, proportioned to maintain the famed British "tonal" quality, are cast in moulds after the alloy has been heated to well over 1,600 degrees Centigrade. In addition to bells for churches, chapels, monasteries, schools and clocks, they are also cast for fire engines, ships, buoys, sheep and cattle.

Noticed

(Continued From Page 1)
glass... the glass of shattered bottles. Quicks, James, the whist!

Russell and Brander's barber shop on William St. N. will soon have a new southern exposure. Workmen are putting the finishing touches on the shop's southern wall which was hired by the removal of the building formerly occupied by the Dept. of Lands and Forests.

Five

(Continued From Page 1)
ough Millia Pipe Band will also take part. The number of floats entered is terrific, stated Mr. McIntosh adding, "being well be believing."

The booths are all up and ready at the fair grounds and even holidaying Kinsmen are returning home anxious to contribute their services to the project.

Highlight of the Friday program will be the wreath laying of the grandstand. On Saturday evening dancing on the second floor of the grandstand building will be featured with Pete Brady and orchestra from the "Big Gals."

The draw for the \$1,000 bill will be made at 12 o'clock Saturday night.

It is expected the two day Karival will be a colorful and exciting extravaganza drawing the biggest crowds to date from near and far Kin McIntosh added.

1½ million stolen

The Federal Reserve Bank of Boston says it appears that a total of one million, 500 thousand dollars in cash has been stolen in the hijacking of a 1½ million truck in Plymouth, Massachusetts.

POST-FLIGHT EXAMINATION

Russia's "why-landed" astronauts are getting extensive post-flight physical examinations this morning. Five hours after astronauts Andrian Nikolayev and Pavel Popovich returned to earth the official TASS News Agency announced both spacemen "feel well and their physical state . . . is good." Tests the two spacemen are now undergoing will give Soviet scientists an indication as to how well humans can withstand the rigors of weightlessness over a prolonged period. Premier Khrushchev will interrupt a vacation on the Black Sea to welcome the astronauts home. The cosmonauts are expected to take flight Friday in Moscow's Red Square in the presence of all Soviet celebrations. There the two astronauts will stand atop Lenin's tomb to receive the acclamation of the Russian people for their double-barreled space triumph.

LAND IN PRESCRIBED AREA

LAND IN PRESCRIBED AREA

Soviet news media say the two astronauts landed in the prescribed area after completing all phases of their journey. For the first time the Soviets announced the landing area was south of the town of Karaganda in the southern Soviet Republic of Kazakhstan. Nikolayev brought his Vostok 3 spacecraft back to earth after 23 days of orbiting the globe for nearly four full days. His companion touched down just six minutes later after a flight lasting almost three complete days. Soviet scientists say the flight opened the way for the establishment of way stations in space that will serve as bases from which future astronauts will take off for the moon . . . possibly beyond. Other scientists around the world predicted the dual flight set the stage for future rendezvous between two or more space ships . . . if Nikolayev and Popovich themselves had not accomplished one.

PRISONERS TO BE RELEASED

The Pro-Communist Deputy Premier of Laos has announced that an unspecified number of American prisoners being held by the Communist forces will be released Friday. Prince Souphanouvong said the prisoners have now arrived at the Plain of Jars and will be brought to Vientiane by Friday. Five Americans and one Filipino are known to be in Communist hands.

URGES SOVIET UNION

Canada has urged the Soviet Union to clarify its position on international on-site inspection under a nuclear test ban treaty. Chief Canadian delegate General E.L.M. Burns said in Geneva today that a "specific statement" by the Soviets on this question could do a great deal to break the deadlock following last week's rejection of the revised American proposals.

REFUSES AID

The City of Vancouver has refused emergency aid to about 20 members of the Sons of Freedom Doukhobors "Paternal Council who say they are stranded in Vancouver. A city welfare official says Provincial Welfare Minister Wesley Black ordered the refusal yesterday. A government offer—made earlier — to pay their transportation back to the Kootenays Region of British Columbia has expired.

The government in Ottawa reports that six-million, 569-thousand Canadians were at work by mid-July. The figure represents an increase of 118-thousand from the previous peak of June and is 180-thousand or two-point-eight per cent above the level a year

Ten torrid innings fail to separate tied teams

Ten terrier dogs failed to separate Canadian Tire and Walk's De-Nuts at Victoria Park last night. At the end of ten frames the teams were still tied at one run each, and the pitching was just as close as the game strikeouts: Murray Woods for Walk's and Craig Case for Canadian Tire were even at twelve strikeouts each. Case shaded Woods in his hit department, going 3-for-4, while Case's battery, Mike and his mates collected eight hits off Woods. Each pitcher walked one batter.

Wall's opening scoring in the fourth inning when he hit a home run off pitcher Jim Williams. Canadian Tire failed to get a run until the eighth inning, when it scored on a homer to deep left center. Canadian Tire had runners on second and third in the eighth, but the times failed to reach Murray Stinson's gose egg. Canadian Tire's runner past second base with the exception of Jim Williams scoring at home. Canadian Tire had runners on the base paths and Wall's left tie. Each team had two errors, and one big inning.

For Canadian Tire, in the first inning with one out, Ken Mackett singled his way to second when his safety to centre

AS PREDICTED...

When the devastation of the Canadian dollar was announced several weeks ago, it was predicted that the cost of living would increase. Those who made the prediction probably didn't expect that new record high cost of living would figures would be published. That fact, however, which always tells the story, nevertheless shows that things are going about as predicted.

It is significant to note in analyzing the further upward trend in living costs that the greatest impact has been in that area which affects everyone, the basic requirements of living itself—food. This is difficult for most people to understand, but we live in a country of abundance, one in which we produce so much of so many things that the government pays producers subsidies because production is hampered by the law of supply and demand which makes it unprofitable for them to produce many things. If we had suffered long periods of drought, crop failures, etc., or if we had been in a position of production and so forth, the high cost of most essential foods would have been a basis for justification.

As we have often pointed out, these repeated increases in the cost of living cannot be absorbed by a large percentage of the nation's people without hardship. Those who are in a position to adjust their incomes to meet the demands made are able to cope with the situation, albeit not in the most satisfactory way. That increasingly large portion of our population which lives "off" incomes, (wages) from investments, pensions, etc.) has no recourse at all.

Shouldn't rising prices in the basic essentials of life be a matter for no one to ignore? The answer is "yes." More and more people are beginning to wonder if they aren't "over a barrel" when it comes to food. "... They can't do without it and if they want it, they're going to have to pay the price, no matter how high. What do you think?"

IN RATHER AN AWKWARD POSITION

Lindsay finds itself in rather an awkward position in the matter of sewage disposal. While it is undertaking to prevent raw sewage from entering the Sturgeon River from isolated sources, it is (and has been for months) virtually dumping all of its raw sewage into the river at a point just beyond the faulty sewage disposal plant. This situation will continue to exist until sewage disposal facilities have been restored.

It is also to be noted that the sewage disposal system embodied in the existing Inoperative plant was never complete, nor was the town ever totally serviced in the matter of the nearly half-million dollar system. Since the construction of the lagoons-type treatment system now proposed is not intended to provide some sections of the town with sewage treatment service. This is a disturbing prospect in view of the cost involved and the money which has already "gone down the drain" in the effort to provide sewage disposal facilities at Lindsay.

Despite the fact that the Ontario Water Resources Commission has been named by council to build the new \$250,000 lagoon-type plant, and while the matter is currently before the Ontario Municipal Board, there is something unsatisfactory about the project. If, when completed, it still will not serve a large section of town and many people seriously question the wisdom of again getting into a patchwork system of sewage disposal. What, then, had (and rightly so) been the use of spending all that money and still not servicing all of the town?

The town has lost effort to provide a sewage treatment plant, rendered the taxpayer "getting the treatment" . . . There are many who feel the one treatment is all they require.

MARVELOUS AS IT IS . . .

Marvellous as it is that both the East and West have been able to put men in space and send them hurtling around the world at fantastic speeds, there are those who wonder if it is worth the price being paid. They wonder, too, if the affairs of the world shouldn't get top priority.

Millions of dollars are blasted away every time one of these manned or unmanned rockets are shot into space while at the very same time millions of people are hard put to make ends meet, taxes necessary to finance such missions not being an inconsequential factor in their struggle.

The rocket and arms race were being indulged by the great powers is making a heavy drain on their subjects and has multiplied the financial resources accruing to the masses is viewed with extreme skepticism by many. It is something like being a spectator at a fireworks display—The show is spectacular but when it's over, there isn't much to see for the money spent.

It would be interesting to learn the results of a world-wide poll on the question of whether or not the continuance of space experiments while there is so much unfinished business on earth?

VOLUNTARY BOARDS OR COMMITTEES?

Are you a member of a board or a committee of some kind? If you are, you will probably be interested in the following excerpt from the Monthly Letter of the Royal Bank of Canada which this month takes as its subject "The Voluntary Board Movement." It deals specifically with voluntary organizations and states quite:

"Each of the work of voluntary organizations gets done by teams of people working on boards and committees."

"A good working group is not made up of people who are interested in the work, or in influence, or wealth, but because they are interested in working toward the good of the organization and do so with intelligence, energy and zeal."

"Taking, even of the most earnest kind, is not the purpose of a committee. People may talk learnedly and with self-righteousness about juvenile delinquency, but all the talk achieves nothing comparable to one

HEALTH AND WORKING LIFE

One of the most important results of improved health and longevity in this century has been a large increase in the average length of working life.

In 1900-02 a male baby in this country had a work-life expectancy of 31 years. But as health conditions improved steadily, the average working life rose by 1958 the expectation of working life was up to 42.3 years.

This increase in working-life expectancy is a corollary of the remarkable increase in total-life expectancy, i.e., the expectation of life from birth to death. Total-life expectancy has risen from 47.5 years in 1900-02 to 66.4 in 1958, an increase of 18.9 years.

As another corollary, the increase in total-life expectancy has caused a rise in the expected number of years that will be spent outside the work force. Thus the expectation of non-working life was 16.8 years for male babies born in 1900-02 but 24.1 years under the 1958 life table (as the rate is 2 years).

Part of the increase in years outside the labor force is accounted for by the later ages at which young men today begin to work. In 1900 the estimated median age at entry to the labor force for males was about 15 years. But by April 1958 the corresponding median had risen to 17.4, or for females to 17.7 years.

Working-Life Expectancy of Woman

As with males, the expectation of working life for a female baby has risen steadily. In 1900-02, the expectation to the working-life expectancy of 29.02, a female baby had a working-life expectancy of 6.9 years. The comparable figure rose to 12.1 years in 1939-41, and 19.9 years in 1958.

The working-life expectancy of females in 1900-02 was 29.02 years, but by April 1958 the corresponding figure had risen to 17.4 years. The comparable proportion for males was much higher in 1900-02, 44.5 per cent of their total-life expectancy.

For males the rise in work-life expectancy between 1900-02 and 1958 was due entirely to improvements in mortality, and in fact occurred in spite of decreased labor force participation by men at the extremes of the working-life span. For females, however, although a substantial proportion of the rise was due to mortality improvements, more important was the increase in female participation in the labor force. Thus at ages 1 and over women in the labor force as a proportion of all females in the population increased markedly between 1900 and 1958, from 20.0 to 35.3 per cent.

THE ECONOMIC SCENE

The fact that Canada is facing serious problems can no longer be denied. Politically, the election of a minority government is an indication of uncertainty in the part of the electorate. Economically, the Prime Minister's announcement of immediate emergency action to cope with "increasing degree of uncertainty and instability in the financial markets" sounds a note of warning to all Canadians.

It is the Prime Minister's view that the Canadian economy is fundamentally strong and sound but it must be perfectly obvious now that the economic problems with which we are faced are serious. There has been concern for a long time must be met at once with the combined effort of all Canadians.

The signs of approaching economic difficulties have been plainly visible for a long time, to all who take trouble to observe. In its submission to the Senate Special Committee on Manpower and Employment, in December 1960, the Executive Council of the Canadian Chamber of Commerce, pointed to the need for increased productivity and demonstrated that the margin of profit for Canadian business would appear to be inadequate for the job which it was necessary to keep ahead in the competitive race. Reference was made to increasing labour costs and to the fact that on a per capita basis, Canadian wealth is considerably less than that of the per capita wealth of our neighbors to the south, indicating a need to exert restraint regarding demands for increases in salaries and wages if we are to be able to produce at costs which will allow us to remain competitive. At that time, the reference was made to the Chamber's policy that the burden of taxation to be onerous in Canada and that personal and corporate income tax rates are such as to discourage initiative. Attention was also drawn to the fact that there was a need to contain the aggregate spending of all levels of government.

A look at some relevant statistics will help to clarify the picture. In 1958 the Canadian Gross National Product per capita in constant dollars (1957) had a peak of \$1,859. In 1961, this had actually declined to \$1,399 - evidence of a lack of real economic growth. While average yearly savings in manufacturing grew from \$1.04 in 1950 to \$1.72 in 1959, profits of industry fell.

small action. The earnest committee will not pose, nor indulge in vain rhetoric, but will hasten to seek the most appropriate way of accomplishing its purpose. It will bring aside debate about procedures and get on to grapple with the pick of its reason for being; human necessities.

The purpose of committees and meetings is that, one person rarely knows all the facts or all the angles. An exchange of opinions is necessary to spark new action. The constructive number of a committee is to study the problem so as to make his contribution worthy of consideration.

Business men are particularly valuable on service boards and committees because of their habitual way of looking at things. They apply their experience so as to locate the problem, validate it as one affecting this group, set up research and collect information, consider all the various ways of solving the problem or meeting the situation, and reach a decision.

"They do not begrudge a minute of the time they spend in meetings of voluntary associations, but they do wish that the meetings were carefully planned and efficiently carried out."

Reports and Remarks...

Inflated costs in Canada declined from 5.1% (as against gross price index) to 3% in 1959 (the last year for which such figures are available). Ottawa's budgetary expenditures have tripled since 1949 and Canada's 19 successive years have been operating "in the red". The decline in profits has been reflected in a drop in the corporate outlays which reached a peak in 1958. These are now down some 15%.

All of these things are a matter of record and, as the Chamber has pointed out many times, are indicative of an attempt to live beyond our means.

The economy of a country is subject to the same economic laws as the economy of a business or the economy of a family. If you live beyond your means you are in trouble.

—News Letter.

THE MAKING OF STEEL WOOL

If you have ever wondered how ordinary steel wool is made, you might be surprised to learn it is literally "shaved" from steel wires.

Trevelling at the rate of 350 feet per minute, a series of special low carbon steel wires, 1/16 inches in diameter, are passed through steel wool machines. These machines consist of successive units of angled cutter blades under which the wire is directed by means of grooved guides. As the wire passes under the blades, small skeins of steel wool are shaved off. These skeins are directed upward, where they are collected into a large skin by means of self-forming continuous belt of steel wool.

The large skeins then pass through a pair of pulleys which actually serve as the only means of motivation for the skin conveyor system. Having passed through the rolls, the flattened belt of steel wool is then taken to a pad of rollers which serve as a holding unit for the skin. The rollers machine, where it is cut to length, rolled in pad form and conveyed to an operation for packaging. Soap impregnated pads through an identical operation except for the actual soap impregnation, which is done separately.

WHAT DOES THE PIGMENTATION MATTER?

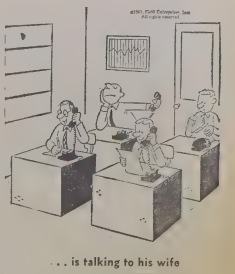

A correspondent recently criticized two sports articles appearing in this newspaper because in each case the central figure was identified as a Negro—in one instance, four times. What has the man's color to do with his athletic (or off-field) activities? It was asked.

A good question. As a general rule, there is no more reason for a player to play a football or basketball player is a Negro than there is for a baseball player to be a Negro. Players come in all hues nowadays, and so do thieves. But occasionally discrimination is excusable. This was so when Jackie Robinson broke into major league baseball, the first of his race to do so. That soon ceased to be the practice as more and more Negro players appeared on the diamond. One of them pitched a no-hit game for the Boston Red Sox not long ago, but it was only from his photograph that any outside baseball fan would learn the color of his skin.

The case of Charlie Simons, runner for the Canadian open golf championship this year, perhaps warrants the descriptive label (though not four times in a single article), because first-class Negro professional golfers are still a comparative rarity.

Rarity is really the test. Thus an American player in the National Hockey League may reasonably be his nationality referred to. Similarly with Stan Mikita, born in Czechoslovakia, or Bobby Thompson, the Glasgow Scot who 11 years ago shot the lone home run in history.

—The Ottawa Citizen.

Drive tractor after flat ditch at fixed \$200, costs

A man has been convicted of impairing driving in Lindsay, Ontario's court but it wasn't a car he was driving. The defendant was picked up when the tractor he was driving became involved in an accident on a parking lot.

Police say Edward Riab, 17, of Santiago, Calif., driver of a convertible which had a flat tire went out on an accident on the loose gravel and rolled over in the ditch.

The driver was unhurt but a passenger, Susan Robinson, 17, taken by ambulance to the Ross Memorial Hospital was treated as an outpatient for a back injury.

Ross Memorial Hospital says he thinks it was the first case of its kind in Lindsay.

Second Canadian Grand Prix to feature famous drivers

Toronto, Aug. 10. — Plans racing models bearing the same name, is powered by a titling are proceeding with 2700 c. c. engines of Clineax some of the world's most design. It was this engine that was to have powered an entry in the Indianapolis 500 centennial Canadian Grand Prix this year, but wasn't ready in time.

At present, McLaren is in third position in the world's racing drivers' championship, only four points behind Graham Hill, the leader. In second place is Phil Hill, the 1961 champion who has not yet won this year, but wasn't ready in time.

"We intend to make this the biggest, most exciting and closely-contested race ever at Mosport since this auto racing circuit was opened in June of last year," stated J. Ron White, the organizing club's president. "Popular international drivers who have already raced in Canada will be back and, in addition, we are negotiating with a number of other famous drivers, some of whom will be making their first Canadian appearance."

The 50-mile non-stop race will be held with the complete sanction of the Fédération Internationale d'Automobile de Paris, the top governing body for car racing throughout the world. Drivers will be competing for a share of the \$10,000 in prize money and the coveted Pirelli - Coli Trophy. The field will be limited to 20 entries.

First confirmed entry in the second annual Canadian Grand Prix is a new sports racing car the Cooper Monaco, which will make its world debut at Mosport. John Cooper, head of the famous British racing car company, Cooper Cars Ltd., has confirmed the entry. It is expected the Cooper Monaco will be driven by New Zealand driver Bruce McLaren.

The new Cooper Monaco, built in a line of workman-

like same, is powered by a titling are proceeding with 2700 c. c. engines of Clineax some of the world's most design. It was this engine that was to have powered an entry in the Indianapolis 500 centennial Canadian Grand Prix this year, but wasn't ready in time.

Cambrey

Under favourable weather conditions Eden annual Deception Service was well attended when approximately 160 persons assembled on the church lawn and in the shed. Rev. Harrison of the Anglican Church, Penelon Falls, was guest speaker and Robert Tompkins from Cambrey was invited to read the opening prayer. The service was planned for the service, and the hand favoured with music. There was a large number of people from here in attendance.

Congratulations to Mr. and Mrs. Glen Smith (nee Ruth Strouff) who took their marriage vows in Cambrey United Church with Rev. J. A. Macartney officiating. Eden U.C.W. served at the reception which was held in the church parlors. Mrs. Florence Hunt, Mr. Edward Stroud's sister, her husband and two sons and Mr. and Mrs. Bill Stroud and two sons of Toronto were some of the guests from a distance attending the wedding. Mr. and Mrs. Stroud and family are on vacation in a house near Eden, family.

Dalyrple

A Bike. Sole held in Tudav's Garage brought in \$50.00. Assisting with ticketing and sales were Mrs. Adams, Mrs. Fox, Mrs. D. Deccrell and Mrs. B. Deverell.

Sympathy is expressed to Mrs. Russell Pennington and her children. The community was shocked to hear of Mr. Pennington's untimely death.

Sorry to hear Harry Black was involved in an auto crash both cars but no injuries.

Sympathy is extended to Mr. and Mrs. Geo. Wires who attended the funeral of George's brother, Victor Wires of Ottawa who died suddenly.

Other Dalyrple friends paid their respects at the funeral.

Mrs. Burton is spending the summer at her home. Her family Mr. and Mrs. Rait and family of Camp Borden. Mr. and Mrs. Clavay and family of Orlia. Mr. and Mrs. Brown of Toronto, and Mr. and Mrs. Burns of Ganderbach, are frequent visitors.

Mrs. C. Dalgleish of Belovet is spending a few days at St. Mary's.

Mrs. Thrasper spent a pleasant week at the home of Mr. and Mrs. Peter Bucher.

Mr. and Mrs. Peter Bucher, of Beaverton, visited friends in this area and attended the Smith and Stroud wedding.

Guests at Mrs. Eric Vasey's home were Mr. Ernest White, Mrs. Harold White of Thoron, and Mrs. Greta Wells, of Toronto.

Miss Cleo McGarry, of Toronto, and Mrs. A. Jewell, of Oakwood, called on Miss Zella Owens who has returned to Dalyrple.

Mr. and Mrs. Robert Ward and children, of Stirling, visited the wedding.

Mr. and Mrs. John Tacon and children, of Ottawa, called on Miss Myrtle Graham.

Felon Falls UCC summer meeting

Penelon Falls (PNS) — The singing of the hymn "In Christ, there is no East or West" emphasized the theme of the worship service conducted by Mrs. Carl Way at the summer meeting of the United Church of Canada held in the lower hall of the school.

The scripture was read by Mrs. A. McGee. Mrs. Money gave an appropriate solo and Mrs. Way read "The Colour of My Skin". Prayer by Mrs. J. Jones and the singing of a hymn conducted the devotional period.

Business matters were dealt with by the president, Mrs. Sharp and ward reports were received. A report was made of the purchase of needed appliances for the kitchen. The ladies were reminded of the school for leaders to be held in Whistler Ladies College.

Several ladies are planning to attend this worthwhile school. Mrs. John O'Brien, Eastern Shore, is planning to attend.

The school board has selected a teacher for Mud Lake school. She is Miss Shirley Smith of the Woodville locality.

Miss Smith is a new graduate of Peterboro Teachers College and has had two years successful teaching experience in a rural school. Mr. McGee will be resuming her duties at Dalyrple school where good results are being achieved.

Sylvan Glen Smith will be under the direction of a new teacher this year, as Mrs. McGee is taking a well-earned rest from teaching.

Mrs. McGee is on a tour of the Western Provinces at present which will provide many new scenes and experiences.

Mr. and Mrs. Graham McGilvray and children are on a week's camping tour eastward to Quebec where they intend to visit the Johnstons.

Miss Thorah Day, of Calgary, Alberta, is visiting at the Graham and Day homes in Dalyrple en route to Ottawa.

Mr. and Mrs. John Tacon and children, of Ottawa, called on Miss Myrtle Graham.

This is shaping up to be another fishy story day . . . To start it off, Murray Weight, Mrs. John O'Brien, Eastern Shore, is planning to attend this worthwhile school.

The picture on the left gives some idea of the length of its mouth in relation to the rest of its body. On the right, the size of its toothy mouth is emphasized by holding it open.

Murray says the species is a member of the Dinorae family. Although somewhat solitary in its body appearance, the fish is social and finned. Fishermen in the area said they had never seen a catch like it before.

A nine-year-old Lindsay girl is also making news with her luck as a fisherman. Mary Catherine Gendron, daughter of Mr. and Mrs. Cherry Gendron, made the catch of her holiday when she landed a 10½-pound muskie. She was and fairly refreshingly, in House over a cup of tea charge of Mrs. Vesey.

fishing on Pigeon Lake with diving at Norman Swerthoff's father when the fish caught . . . So that's what the truck. The family was holding-the big ones!

Retires from one job, starts on another

Wallace Olson of 11 Bantelthorpe, the business he has. St. W., Lindsay, retiring as came chief engineer and held chief engineer at Silverwood's plant until retiring age. His wife is the former Tenny Shewby and the couple have three sons and a daughter, Monica, Ivan and Mrs. Betty Ann Black of Lindsay and Marie of Oshawa.

After 20 years service completed at the Lindsay dairy at the end of July, Mr. Jones took over as chief engineer at the Ontario Government Building on August 7th.

Fellow workers arranged a party at his Kinnoult farmhouse and presented him with many gifts. Among those were a chair lounge, a lamp and smoker, a magazine holder and two pipes.

Mr. Jones came to Silverwood in 1941 when the company was still Fivelle's. In present status, the entire summer in 1943 when an Silverwood's man at the beach.

Collapses, dies at Long Beach

William Fisher, aged 50, collapsed and died while vacationing at Long Beach on Sturgeon Lake Friday morning.

Mr. Fisher is reported to have suffered from a heart condition and he is survived by his wife and one son. He had pany was still Fivelle's. In present status, the entire summer in 1943 when an Silverwood's man at the beach.

Canada's Young Musicians Delight Symphonic World National Youth Orchestra in Summer Session

One hundred talented young musicians are spending their summer vacations hard at work with Canada's National Youth Orchestra. From across the nation they are assembling in Toronto for 10 days of rehearsal prior to giving concerts in Buffalo, New York (August 15), St. Catharines, Ontario (August 16), and at Stratford's summer festival (August 19). Now in its third year, the National Youth Orchestra Association of Canada was initiated in 1960 by Walter Suckling, internationally famous conductor, who had previous experience with Great Britain's National Youth Orchestra. To qualify, members must be between 14 and 25 years, have proven musical talent. Through the National Youth Orchestra, young Canadian musicians learn to play in a symphony orchestra under professional conditions, thus assuring a supply of first-class instrumentalists for tomorrow's national symphony orchestras. Already, after sparkling concerts in three past seasons, they have won the acclamation of music critics in Toronto, Montreal, Ottawa and Stratford, have learned to share their art under the baton's magic influence, have captured music lovers with their youthful, eager zest and polished performances. Playing under such well-known conductors as Wilfrid Pelletier and Victor Feldt, they have demonstrated that young people can bring a refreshing breed of excitement and vitality to the sophisticated world of serious music, promote a bright future for Canada's symphony orchestras.

Musette Wilfrid Pelletier conducts during winter season in Ottawa. Members' age range from 14 to 25 years.

Margot Morris, harpist, was from Montreal.

Banquet André Mailoux, 18, from Baie St. Paul, Quebec.

Rehearsal at University of Montreal, New York's, 1961. Concerts this summer include August 19 appearance at Stratford Festival.

Stratford Festival — where orchestra's first meeting took place in 1960.

STOP!... killing yourself

TOO OLD TO HAVE A BABY?

I receive many letters from anxious women from 25 to 45 who want a baby, but are afraid, either for themselves or their unborn child. I have seen a letter from Indiana. A recent letter from a Mrs. T. of Louisiana related she had a baby at 50 and lived to be a happy grandparent. Here is an interesting letter from Indiana.

Dear Dr. Steinhorn: My mother lived to be 84. Her first son when she and my father were living in the Ontario Barracks near Boston during the Civil War. 1862. In 1870, when she was 43, I arrived on the scene here in Indianapolis while she was examining the last week in August: the often said it came in a hurry! Mother called in a close neighbor to finish the peach.

When I was 23 my daughter arrived in June and today she is a high school teacher and at 85 is an old round and happy! My mother said that the babies who came late in a mother's life are the most faithful.

OUR BOARDING HOUSE

By Janet J. Steinhorn, M.D., F.A.C.P.

Present company excepted, I am sending you these facts to encourage others. I hope my letter will be an inspiration to women in their late 30's who think they are too old to have a baby. —Mrs. C.

Comment: God bless you from the time of your letter. It's difficult to believe that you are 85. Having had a mother who lived until 94 helps, but that isn't the entire reason.

Somewhere, however, I developed a philosophy of life that could help many of us. If it isn't too sacred, I'd appreciate passing it on to my readers.

For Mrs. H. it is not unusual for chronic alcoholism to occur in a family for more than one member.

I am sure you received yesterday morning from a Mrs. X. "Dear Dr. Steinhorn: My husband was an alcoholic with a vast number of emotional problems which consequently resulted in his committing suicide. In his family of six, there were four men and two women. But only the male

members had the problem of excessive drinking." —B.T.

Dear Dr. Steinhorn: You are always particular in advising people to see their doctor and I guess rightly so. My doctor who just died, prescribed some drops for me which I have used throughout the years. He gave it to me in his office and called it "epinephrine." What shall I do? Where can I obtain this remedy? —Mrs. Z.

Comment: I'll not make an exception to the rule this time, and I insist that it's better for you to see a new doctor, start from scratch and depend upon his diagnosis and medicine. As the condition of your eyes is at this time a big question mark (likewise, the nature of what the ophthalmic solution contains) I think it makes better sense to have your doctor at the helm, rather than you are around in circles looking for some medicine that may not even be indicated at this time. (Revised by the Bell Syndicate Inc.)

Attend dance at Lakefield

Mr. and Mrs. Ross Harding, Mr. and Mrs. Joseph Montemiglio, Mr. and Mrs. Tom Purdy, Mr. and Mrs. William Dermody of Lindsay, Ontario, and Bessie and Bonnie Britain of Dunford, attended the regular monthly dance at the Lakefield Legion on Saturday night.

Dancing was enjoyed to the music of the Henry Mac's from Peterboro.

This visit to Lakefield is hoped to be one of many that will be made by members of Branch 47 Royal Canadian Legion in Lindsay to other Branches, bringing a closer relationship between members and their wives. Lakefield's new Legion Hall is the proud result of the efforts of the members who donated much of their time to make this hall a dream come true for the beautiful town of Lakefield, Ontario, and for the Royal Canadian Legion.

Cambray United Church scene of pretty summer wedding

On the lawn of the Cambray United Church, a beautiful wedding ceremony was held on Sunday afternoon. The bride, Miss Catherine Smith, daughter of Mr. and Mrs. Elwood Stroud, was escorted by her brother, Mr. Elwood Stroud, to the altar by her father, Mr. Elwood Stroud. The groom, Mr. Vernon Smith, son of Mr. and Mrs. Vernon Smith, was escorted by his brother, Mr. Vernon Smith. The ceremony was officiated by Rev. James A. Macartney. The wedding party included the bride's mother, Mrs. Elwood Stroud, and the groom's mother, Mrs. Vernon Smith. The reception was held at the Cambray United Church. The wedding was a beautiful and memorable occasion for all who attended.

Ex-inmate returns as a preacher

A man who once considered becoming a dog publisher this weekend returned to Kingston, Ontario Penitentiary and preached a sermon where he had once been an inmate.

Thirty-six-year-old Reverend Donald Walbridge yesterday told prisoners in the prison's Protestant chapel "I see some familiar faces. Some of you were here when I was ... some of you are here again."

Walbridge told the men he was not trying to show them what a success he had become ... only what they could do themselves if they made the effort.

Walbridge credits the influence of a girl who is now the mother of his two children with helping him become a Baptist minister - despite only a grade four education when he went into prison on a six-year sentence in 1941. He was released four years later.

The happy couple will reside at R.R. 3, Woodville, Ontario.

Showers

Prior to her marriage, the bride was given a kitchen shower at the home of Mrs. Ann McMillan of Lindsay. A miscellaneous shower was given by the Eden community and surrounding communities and both bride and groom received many useful gifts.

Trouses Tea

Mrs. Elwood Stroud, mother of the bride, held a trousseau tea in honour of her daughter on August 1st, when 150 guests viewed the display of gifts and bride's trousseau. The tables were beautifully decorated with red and white burlap. A delightful lunch was served and everyone enjoyed a social visit over a cup of tea.

WEDNESDAY, AUGUST 2ND, 1982

EDITORIAL....

DESIRABLE AS IT MAY BE...

Desirable it may be to have an even wider Kent St. to go along with the thinking of Councillors DeCosta and MacEachern to the effect that main street to be widened in Lindsay more urgently in need of attention, Kent Street, already one of the widest main street to be found in any Ontario town, has been given a lot of attention in recent years and is really not in bad shape when strolling alongside other main arteries.

Councillor St. W. is, to use the vernacular, "going to the head of the parade" and the Lindsay School Board is not in a hurry to accommodate the increasing flow of traffic. In the case of the latter street, with existing parking regulations, there are points which are positively hair-raising.

We can see the desirability of widening Kent St. between the points aforementioned to provide additional parking space for many of the cars in the streets in much worse condition than Kent St. but "put first things first". Kent St. is already a four lane artery and plenty wide enough for the average pedestrian to try and cross under today's traffic conditions.

Remember way back when

AUGUST 22, 1912

Successful candidates who desire to attend the college session of the Victoria School Board must make application for admission to the Deputy Minister of Education not later than Tuesday, September 3rd.

Parliamentary party
 Lindsay voted yesterday for a distinguished parliamentary party consisting of Hon. J. D. Reid, Messrs. G. Porter, M.P., West Hastings, Wm. Northrup, M.P., East Hastings, J. A. Scamman, M.P., East Peterborough; C. A. Mason, M.P., West Northumberland, W. Bennett, M.P., South Simcoe and several others. The members will be accompanied by their wives and will leave Peterborough tomorrow morning on the DeSautels Butler and will reach Lindsay in the afternoon. The party will be on the arrival at the bank by a delegation of citizens and will be taken around town in a motor. They will leave for Orillia the following day.

AUGUST 22, 1937

Pension Falls—All noon yesterday a storm blew up from the West and when it hit the east shore of Cameron Lake will "the wind she a hurricane. And then she blow more more." A number of tents on the Girl Outdoor Camp Ground were blown down; four tents on Graham's Point, several good shade trees were turned over and at McCallum's Camp one large elm about 12 inches in diameter was uprooted as well as several others. Several boys tried to hold their tents down, but they were outwitted by the wind. A sail boat on Balsam Lake was blown high and the crew was so frightened they were unable to speak. Some were praying and some were crying so the storm was called.

Reports and Remarks...

A CODE OF ETHICS SEEMS NECESSARY

As a result of misadministration in some Ontario municipalities, concern has been expressed over the conduct by those holding public office. While some of these illegal actions have been due to ignorance of the law, some have been carried out by officials who strided at established rules and regulations.

The Ontario department of municipal affairs recently warned civic officials on ethical conduct, mentioning in particular items of business where there is a conflict of interest.

This caught some members of councils by surprise, particularly in the smaller centres. In these towns, councillors often are merchants who sell goods to the municipality. In most cases the amounts are so small that no huge profit is realized. But there is always the case of abuse or the risk of abuse.

The result of the warning has caused concern among some elected officials. Some of these men, good men, too, are going to drop out of political life. They do not want to run the chance of being accused of underhanded tactics.

There are others who feel that a code of ethics should be drawn up and followed by every public official. There also has been some discussion that a school should be set up where mayors and reeves could learn municipal law and procedures.

Certainly a code should be laid down on what course municipal officials should follow. They should be set down by the provincial government so they could be a standard.

In the meantime, public officials should follow the dictates of their conscience. They know right from wrong and should not put private interest ahead of public interest. They have been elected to be careful. If they aren't they must be ready to face the unpleasant results that will eventually follow.

GENERAL ELECTRIC DRYERS

TWO CYCLE HIGH SPEED DRYER—MODEL 50011
• Dry cycle up to 140 minutes • Automatic shut cycle
• High Speed Drying System • Safety reset switch
• Variable heat selector—High, or Low • Full wall
load capacity • Porcelain enamel drum • Fine metal
screen lint trap • Full width, wide opening door • Oper-
ates on either 115 or 220 volts • Counter height (18")
and depth 23 1/2" fits like a "Built-in" • CGS 1 year
written warranty.

• MODEL 50201 same as 50011 except • High-Low
Heat Selector • Mechanical door latch • Cleaning
enamel top and drum • Matchless washer model 50025
and 50215.

FOUR MORE
Four more earthquakes rocked southern Italy to-
day—killing dead and destruction to the aftermath of
yesterday's two tremors. Officials say at least 15 per-
sons are dead—100 injured. Some half-million
persons fled from their homes, many into the country-
side. Sidel one witness: "I have never seen such a
panic. People were trampling each other and
screaming." Premier Fanfani has left Rome to visit
the stricken area.

FOURTH EXPLOSION
The Soviet Union reportedly has set off the fourth
atmospheric explosion in its current series which began
August 5th. Scientists at Uppsala, Sweden, say
the bomb had the force of nine tons of T.N.T. A 40-
megaton device which started the current series was
the second largest ever set off by the Russians.

EARLY ELECTION
Social Credit Leader Lord Connaught says he favors
an early election to determine the fate of Prime Min-
ister Diefenderfer's minority government. But the
New Democratic Party's C. Douglas says he thinks
the public would resent an early election.

AGREES TO BUY WHEAT
Poland's Vice-Minister of Trade announced in Ot-
tawa yesterday that his country has agreed to buy 15-
million bushels of wheat from Canada... and has
agreed to take another 15-million if Poland has a poor
grain harvest this year.

SET TO WORK
Bloodhounds were set to work at daybreak today
to try to locate 10-year-old kidnap victim Thomasina
Baker at Allison, Ontario. The hounds began at
tracks leading into a swamp where police yesterday
found a child's sock.

TRY TO FIGHT OUTBREAK
Health officials in Halifax are trying to fight an
outbreak of infectious hepatitis in a local housing
block. In other health news... three non-profit private
medical agencies were authorized yesterday to op-
erate Saskatchewan's medicare insurance plan... and
in Hull, Quebec, another Thallidomide-deformed
baby was born.

NO TRUTH
The eighth annual congress of Microbiology in
Montreal was told last night by Dr. Albert St. Bal-
devin of oral vaccines—that there is no truth in re-
ports of a Cuban polio epidemic. And a Brazilian ex-
pert told the gathering it seemed to be the "unbe-
lievable" that a case of smallpox could be carried into
Canada from Brazil.

"EXTREME PAIN"
Convicted Russian spy Robert Soblen left a Brit-
ish courtroom for an hour this morning—saying he was
suffering "extreme pain." Soblen is fighting a deportation
order to the U.S. where he faces a life sentence for
espionage. His attorney is challenging the legality
of the order... calls it the extradition of a political
refugee in disguise.

WELL ENOUGH
A physician attending Sir Winston Churchill says
the British wartime leader showed he was well enough to
take a few steps around his home at Hyde Park, near Lon-
don. The 77-year-old Sir Winston, released yesterday
from a hospital where he recovered from a broken
thigh bone, reportedly is anxious to return to his seat in
the House of Commons.

ONLY ORDER OF BUSINESS
The only order of business for former president
Eisenhower today will be a lunch in Dublin with Presi-
dent De Valera of Ireland. Eisenhower, touring Europe
with his wife and two grand children, expects to spend
the rest of his day taking it easy in his apartment.

Special emphasis on over 60s in fall TB tests, X-ray survey

The coming fall tuberculin test men approaching 60 years
old and X-ray survey will place a special emphasis on men up
to 65 years of age. At the close of the 1960 survey, the
prevalence of tuberculosis in men over 60 was the highest
in the country. In 1959, the prevalence of tuberculosis in
men over 60 was 1.2 per cent. In 1960, it was 1.3 per cent.
The survey was conducted by the National Tuberculosis
Association which met this week to discuss the results of the
survey. The association's president, Dr. J. Legault, said: "All area
health officials will be called to a meeting on August 27th at
which time plans will be finalized. There will be no school
children and with this in mind it is hoped that parents will take
their children to the clinic in the fall. The survey is the
first of its kind in the country. It is a special emphasis on
respiratory diseases."

Says Canada holding own despite giant on border

Windsor, Aug. 22—UPI—An Australian newspaper publisher said today that a cross-Canada tour has convinced him that "in spite of the United States giant on the border, Canada is holding its own." John J. Bradley, publisher of 17 tri-weekly newspapers in New South Wales, said he was impressed by the growth of industry in Canada since his last visit, 25 years ago. "With a very little competi-
tion on the border, Canada must be on the ball," he said. "I'm sure Canadian brains can match those of Americans." Bradley's tour of Canada is the last leg of a round-the-world trip which began May 24th.

Letter may help establish link with John Franklin Crandell

Information has come to 1885 and 1886, it was learned
which may help to clear today.
The mystery surrounding many phone calls and sug-
gestions have been received from an appeal made a few
in this area some time ago, by Clerk-Treasurer
W. B. Bates but only one contact
today, is expected to shed
some light on the matter.
A letter from a Mrs. Barr of
Riverside, Ontario, stating she
was a Crandell before marriage
has been forwarded to Mrs.
Patricia Hepburn in England

\$10,000 grant on renovations confirmed

Confirmation was received from the Department of Agri-
culture that the Lindsay Arena
renovations would be eligible
for a \$10,000 grant. Council
agreed the grant would be
applied on the renovation cost.
Recreation commission mem-
ber Robert Payne pointed out
the arena renovation contract
had been accepted at \$60,000
and the committee would like
council's sanction that the
\$10,000 grant could be applied
on this project.
Council authorizing the
spending of the grant in this
way.

Seedless flowers become living room rage

The recipe for making plastic flowers is simple. You start with polystyrene - then add equal quantities of color or varnish, nimble fingers and stamens. The Canadian chemistry is supplying the polystyrene, but the Chinese people of Hong Kong are the masters of the other huge diets. For in that faraway corner the ancient and tedious art of flower arranging has given way to flower making among modern production line technicians.

Polystyrene resin is moulded in granular form from Canada to the British crown colony. After arrival, the granules are tumbled blended with pigments to give them color; then they are fired in an injection moulding machine where heat and pressure reduce the material to a pliable plastic and force it into a hollow shell die. After a brief cooling period, the die is opened and the moulded part removed. These parts in the shape of petals, leaves and stems are then assembled by hand. That's why quick, mass are necessary.

The blossoms are put together first - petals by petals - and then the center of the flower is applied which gives the tension to hold the petals upright. They are then added to the stem, along with the leaves, and the complete flower is packed for shipping. Some flowers take longer than others; a hydrangea for instance may have up to 180 parts. It's easy to understand why labor costs for such painstaking work would be too high in this country.

Physical agility is important too. Some moulding machines are hand operated. If so, the injection cylinder is operated by a long lever which is worked by a coiled spring into the air and pulling down on it. He holds it down during the cycle.

Some flowers take longer than others; a hydrangea for instance may have up to 180 parts. It's easy to understand why labor costs for such painstaking work would be too high in this country.

Control of late blight

One of the most destructive potato diseases is late blight. This disease attacks the vines, causing them to rot, with resultant reduction in yield. It is the only later cause, rotting of the tubers. Since late blight develops and spreads rapidly in warm damp weather, the Field Crops Branch of Ontario Department of Agriculture, points out that the only control measure - and a measure that must be taken in ample time to control the disease - is the proper use of fungicides. This involves covering the potato plant with a protective layer to prevent night spores from development. Certain varieties are resistant to some strains of blight, but none are immune to the disease. As a result, spraying and dusting is necessary.

The most commonly used materials are the organic compounds which give good control, if properly applied every seven to ten days. Bordeaux is still popular and gives excellent control of blight.

Potato growers who want assistance in this matter of

ing coolie . . . then let it go. These coolies are apply called jumpers.

Actually, flower making has been an occupation of the Orient for centuries, and it was limited because of the materials used. But the market for these products was limited because of their perishable nature. There were no signs of it becoming a big business until 5 years ago when they first started to make flowers using poly-ethene. Because of the texture and life-like appearance of the moulded flowers and plants they were an immediate success. Markets for them opened up throughout the world as cases they were easy to pack and ship. Today more than 400 companies are making flowers in Hong Kong, employing many thousands of people.

What's ahead for this novel industry? Well, from lessons learned while producing household and industrial decorative plants, the industry is starting to "branch" out. Production has started on Christmas trees. But instead of assembling the boughs at the time they are moulded, the tree is assembled after it reaches its destination. The growing popularity of plastic trees is a good news for the plastic industry.

While the natural habitat for artificial flowers and foliage is usually the living room or hotel lobby . . . change is in prospect. Nature is not always friendly to growing things, so the market for plastic plants for outdoor use is increasing. Brilliant red geraniums - so real looking you have to touch them to make sure - can pop up a fading window-box . . . or hedges of plastic barberry that never need trimming and can be washed down with a hose.

Physical agility is important too. Some moulding machines are hand operated. If so, the injection cylinder is operated by a long lever which is worked by a coiled spring into the air and pulling down on it. He holds it down during the cycle.

Cambay

Congratulations to Stewart, Weldon who successfully passed his Grade 12 exams, and Botany and Zoology with honors in Grade 13, which gives him a standing to attend the University of New Brunswick where he will be taking a five year course for a degree in Forestry work.

Mrs. Ray Weldon attended the Training School at Five Oaks.

The Nelson Hill and son, Keith, of Toronto, visited his daughter and son-in-law, Mr. and Mrs. Jim Chambers and children. Mr. Hill joined them in the parade with his wife and daughter and son-in-law, Mr. and Mrs. Will Hardy of Oakville. He called on Cambridge friends recently.

There were quite a number from here attended the Kinsman Carnival in Lindsay. Several of the boys participated in the parade with their parents and horses.

Mr. and Mrs. Allan Wilkie (nee Barbara Moore), of Toronto, had their infant son, Alan Richard Wilkie christened in Cambridge United Church. Rev. J. A. Macartney officiated.

Guests at the home of Mr. and Mrs. Lucie Moore were their son, Ivan, of Toronto; Mr. and Mrs. A. Wilkie and baby, and Mr. and Mrs. Wally Moore and three children of

Council Chambers may not get that 'renovated look'

Lindsay's Council Chambers, may not get that 'renovated look' after all.

Town Property Chairman Joseph Hutton told councilors this week the \$14,500 allocated for sprucing up the town hall is almost spent. There may, he said, be enough left to relocate the mayor's office and renovate the main office, but there will be very few dollars for proposed second floor alterations.

Plan \$75,000 motel addition, urge sewers be installed

A letter from owners of Lyn solved over night," he stated. The advisory committee of the Board of Works that the town engineer will study the matter of sewers in the south-eastern section of town, it was decided.

Councillor Hutton: "I think council should consider sewers in that area. The picture there is changed."

Mayor Hutton stated, he thought the sewer project there hinged on another engineer's report. "Maybe the council will wish to reconsider the situation in the future. It is not a problem that can be

Walt's take the lead in best of five series

A seven-run first inning that scored the third run was proved just barely enough for Walt's De-Nuts to upset the penultimate visiting Canadian Tremen and take a 1-0 lead in their best of five semifinal of the weekend. The tie did the seven runs back in the first three innings, but that was all right, as the De-Nuts added six more to gain to the convincing 13 - 7 win. Believe it or not, the usually good going Tremen committed 12 errors to add to Walt's thirteen hits.

Bob Oswald was the victim of the six-run, four error first inning and allowed an additional run and an additional hit in the second, and again in the third inning before being relieved by Craig Case in the third with one in, one out and on. Craig retired the next two in two pitches, but seven additional errors and five hits kept the game out of reach.

Murray Woods got credit for the win despite an unsteady start. In the first three innings, Canadian Tire gathered seven runs on five hits and three errors, but Woods staid along with his mates and pitched shut-out ball from there on.

Alec Pearson was top batter with three singles and a triple in five at-bats. George Daynes, Ted Campbell, and Jack Graham each added two safeties for Walt's.

Dave Walman's triple and single for three was best for Canadian Tire. Don Jackett also added a triple. Ken Jackett, Paul Ashmore, and Craig Case each singled to total the five safeties off Murray Woods.

Paul Ashmore and Merle Rendell for Canadian Tire, and George Daynes for Walt's made terrific plays for their respective teams.

In their big first inning, Walt's sent 12 batters to the plate. Five singles, an error and a walk went into the records before the first out. Two sacrifice flies scored the sixth and seventh runs, then a walk and a single cluttered the base paths before the final out. Jack Williams scored in the second inning after his double, a sacrifice bunt that Ashmore pounced on, and an infield out. George Daynes drew a walk in the third inning and scored on Alec Pearson's booted single.

Walt's scored three in the fifth on a walk, two infield errors and Jack Graham's double, while a double error at first and George Daynes singled plated Murray Woods in the sixth.

A walk, a single, and a dropped third strike kept Canadian Tire's first run. Paul Ashmore's single plated the second one in the first inning. In the second, Dave Walman's triple drove Ted Birchard home after a walk. Walman scored on an infield out. Don Jackett started the Tremen's third run third when two balls booted at second turned into three unearned runs when a putout followed. A throwing error

Car hits pole, short circuit ignites grass

Sunderland PWS - Sunderland volunteer fire brigade responded to an unusual call on Saturday. A car driven by Charles Hewlett, of Canington, had struck a hydro pole causing a short circuit which set fire to nearby grass. The accident occurred near the residence of Lloyd Evans, Brock Road at the 9th. Concession.

Earlier in the day the brigade had put out a fire in a car which had overturned in a ditch alongside Highway 12 below the 8th. Concession of Brock. The two occupants who were from Honey Harbour escaped from the burning vehicle without serious injury. Both cars were extensively damaged.

Find can service subdivision without ripping up sewers

The Warner subdivision can be serviced without tearing up the present sewer installation, but this was not so. The levels were established by surveyor Smith, and the town engineer as well as the John Maxwell engineer were on hand. It is only a difference of opinion of depth and as far as council was concerned it was done in a proper and approved manner. There was no blame attached to Mr. Walman. He should not be ripped for it, he said.

Subdivision committee chairman Mel DeGroot stated his committee had reached an agreement with Mr. Warner on that if the Walden subdivision sewers were unsatisfactory they should be replaced at a cost to the town.

Councillor Russell Taylor stated there was a tendency to believe these sewers were installed with no engineering service, but this was not so. The levels were established by surveyor Smith, and the town engineer as well as the John Maxwell engineer were on hand. It is only a difference of opinion of depth and as far as council was concerned it was done in a proper and approved manner. There was no blame attached to Mr. Walman. He should not be ripped for it, he said.

Issue 15 permits, 5 for new homes

There were 15 building permits with an estimated value of \$87,860 issued in July according to the report of Chief Inspector C. D. Newbigging submitted to council Monday.

The report: Five new residences, \$67,700; seven residential alterations, \$19,900; two commercial alterations, \$1,400; one factory addition, \$8,800.

Sports Parade

(By United Press International)

NEW METHOD

Directors of Baseball Hall of Fame at Cooperstown, N.Y. have announced a new method of electing "Old-Timers" into the hall. Players retired 20 years or more will be considered by the special Old-Timers Committee rather than the Baseball Writers Association.

AGREES ON CONTRACT

The Big 10 and the Western Big Six have agreed on a new Rose Bowl contract. The new pact will continue until one of the conferences requests a cancellation, but two years notice must be given. The agreements relate almost all of the clauses of the old contract between the Big 10 and the Pacific Northwest conference.

FINISH RACE

All the seeded teams in the men's divisions easily advanced at the National Doubles Tennis Championships at Chesham Hill, Massachusetts. Defending champions Chuck McKinley of New York and Dennis Ralston of Bakersfield, California, scored a 6-1, 6-3, triumph over Ed Dalley and Harry Hoffman, juniors of Philadelphia. The ranking American women's team of Karen Hantush-Stroman of San Antonio, Texas, and Billie Jean Moffitt of Long Beach, California, won two matches.

WANTS ELIMINATED

The yachts "Columbus" and "Easterner" have been eliminated from competition to select a defender for the world's cup. In yesterday's trials off Newport, Rhode Island, Columbus lost by two minutes and 25 seconds to "Weatherly" ... and the witness Easterner lost to "Nebraska" by two minutes and 17 seconds.

OTHERS SPORTS

Jim Beatty of the Los Angeles Track and Field Club lowered his own American record for the mile to three-56.6 in an international meet at Helsinki yesterday. The Detroit Red Wings have signed veteran defenseman Bill Gadsby for its 17th campaign in the National Hockey League.

Results of swimming tests held at Fenelon Falls

The annual swimming program sponsored by the Fenelon Falls Rotary Club has resulted in some 280 pupils over the summer.

Some 280 pupils were instructed by two teachers, Miss Patricia Hebertson and Miss Patricia Thompson, both of the village. Not all of those enrolled were able to complete the full six weeks of instruction as the programme accommodates children of various ages in the area for only two or three weeks. The last few weeks of cool weather did not keep the young people from their swimming lessons.

The results of their efforts are rewarding for themselves and for their instructors. Fifty-two pupils passed the Beginner Red Cross test. The remaining Red Cross classes were examined by Mr. Alan Stewart of Camp Kagawong with the following results:

Junior Red Cross — Paul Wood, Sharon Dewell, Paul Baker, Donna Barker, Paul McCullough, Jim Bailey, Gordon Grunwell, Jean Williams, Bonnie Stevens, Paul R. Stewart, Carolyn Sider, Leslie Harris, Paul Phillips, Beverly Saunders, Lynn Wilson, Larry Elroy, Charles Weber, Nancy McKeencher, Jill Wood, Wayne Williams, Earle Pitt, Susan Tremayne.

Intermediate Red Cross — Jane Dunning, Gail Godwin, Wayne Kelly, David Famine, Alana Graham, Charlie Tomlin, Ross Morley, Susan Kerr, Bonnie Card, Steven McCullough, Robert McKerracher, Linda Lewis, Donna Lee Bryson, David Kerr.

Senior Red Cross — Janice Pogue, Heather Porter, Barbara Weaver, Robert Morley.

Buffalo Bisons lose three games in a day

Losing three games in one day isn't the easiest thing in the world to do, but the Buffalo Bisons, who are slump-ridden enough at it, turned the trick yesterday without even walking on the field.

The sixth-place Bisons, who only one game ago were in contention for first place in the International League race, were informed yesterday by League President Tommy R. Haddock that three previous victories had been forfeited because they used an ineligible player.

Just to prove that the day wasn't a complete loss, the Bisons went 15 innings to edge the Rochester Red Wings, 7-6, on John Herrington's 10th home run of the year. Pancho Herrera also added two homers as Bob Locke picked up his eighth victory of the season.

In other games, the league-leading Jacksonville Suns handed Ray Sadecki his first loss of the season as they downed the Atlanta Braves, 6-3. The Columbus Jets made it six victories in a row, edging the Richmond Virginians, 3-2, and the Toronto Maple Leafs scored five times in the eighth inning to hand the Syracuse Chiefs their fifth straight setback, 4-1, UPI.

An impromptu performance of two plays made a very enjoyable conclusion to the party. This entertainment was graciously offered by the World Sport Players who are performing this month.

TWO CARNATIONS TELL A STORY

On Thursday, August 26th at Eaton's, when you see a man wearing a white carnation or a woman wearing a pink one you'll know they are a key part of this story.

This is the day they welcome the 10,000th member of *Quartermaster's* Toronto, into their very special club. It's the Timothy Eaton Quarter Century Club . . . and each member, past or present, has spent a quarter of a century or more serving you and your neighbours at Canada's largest marketplace. New members are welcomed with a significant presentation ceremony and an extended vacation. Each receives from the Company a specially designed watch (or a diamond ring) and a Quarter Century Club certificate. A 10-week tradition is given during their Quarter

Century year. Members of this exclusive club were a carnation today . . . from eleven o'clock to ten o'clock, delivery delivery to the Company's Free index, in every Eaton store in Canada, in our buying offices in other lands. Their long service symbolizes an attitude that prevails throughout the Eaton organization . . . a belief in the good, sound policy on which the Company was founded . . . the policy of a square deal for everyone, including the people who work for Eaton's.

A company is known by the people it keeps, and at Eaton's we're particularly proud that this tradition of fair dealing has proved the basis of a fine career for so many men and women.

EATON'S OF CANADA

marked the first "do-it-yourself" tomatone kit. It sells for \$25 and is reported to be "rocking" in momentum makers down there.

* * *

Mr. E. Lyle of Kinmont didn't feel when he hit the jackpot at the Kinmont Lee

Payne stated he thought any large expenditure on a parking lot could be debated for and the debaters would be out of the parking revenue. Therefore it was feasible to make the above cash outlay at the present time, he reasoned.

By this week," he said.

"We are quite satisfied with results up to now," he added. "I would like to see people of Lindaville be proud of their fair this year."

"Entries have been coming in a lot earlier this year," he said, "with many new exhibi-

the available space usually sold out well in advance.

"The space was all sold out last year," he said. "I think we have more space than we had in previous years."

"I," he said, "and if interest being shown, is indication, we will be about space in a few years."

STOP!...killing yourself

PERSONAL NOTE TO DOCTORS

The doctor is the first to agree that deadlines are next to godliness. All through his training his teachers stress the need for being clean and keeping his instruments and workshop clean. But along the way there are some who turn they become careless. In doing so they are a potential menace to themselves and their patients. Perhaps the following letter will act as a stimulus to make them more conscious of their responsibilities to their patients:

Dear Dr. Steinhorn: More than ever before, the importance of regularly scheduled medical checkups is stressed. Many illnesses, I realize, are cured and many fears allayed due to early diagnosis. However, it is my firm belief that a good many diseases are contracted in these same doctor's offices.

A short time ago, I visited my doctor for a routine examination. The nurse gave me a gown that had been worn

By Peter J. Steinhorn, M.D., F.A.C.P.

previously. I was then told to lie down on a table that was covered with a soiled sheet. By soiled I mean there were lip-stick smudges and hairs on it. Perhaps the woman who had lain on this sheet before me had an infectious disease. What better way to contract it than this?

Not that I irritate the nurse. I took a clean handkerchief from my purse and laid it on the table to rest my face on.

A few years ago I was in an automobile accident and it was necessary to have two stitches taken in my lip. Before working on me, the doctor did not wash his hands after having taken stitches in the bloody-

head of my companion. As a result, infection set in and I have had a great deal of trouble resulting from this. I know that doctors and nurses are very busy having discussed this subject with many friends. I find it is the consensus that some of the doctors and nurses in our city obviously consider clean gowns

with Major Hoops

clean sheets, etc., as unimportant. Since carelessness is evidenced in these fields, we are concerned as to whether the instruments are sterilized properly and other precautions taken against spreading infection among patients.

My life and the lives of my friends are in the hands of the doctors we go to. We would like to know that those hands are clean. — Mrs. A.

Dear Dr. Steinhorn: I am 61 years old and have a heart condition. Lately I have developed arthritis. What would like to know is this: Would a change to the high desert attitudes help me? My doctor says he advises against such a move at this time. — Mrs. U.

Comment: It's not so easy to run away from oneself or from illness. Your doctor knows your condition better than I do, so please rely upon his advice. If in doubt, you can ask for consultation.

Even when a change in con-

"THE POINT" LINDSAY, ONTARIO

BY THE WAY

By the way, do you know the equatorial diameter of Jupiter, the largest of the planets?

The equatorial diameter of Jupiter is 86-thousand miles as compared with the earth's equatorial diameter of less than eight-thousand miles (5,922).

I asked it's better not to rush into it. I have known persons who sold out their business, sold their home, left their friends to move to the "promised land." Unfortunately they did not find the relief they sought, whether it was for asthma, rheumatism, arthritis, allergy, etc. They returned within months to their old home towns, dejected, frustrated and beaten.

When change of climate is considered because of illness it is better to try it in easy stages. Instead of pulling up all stakes, it is possible to try the new environment for three to six months. If you become definitely better then you can plan to make the move complete.

Limestone, a must with farmers

In order to meet efficiently effort between the Federal and provincially ground time, and Provincial Departments of stone is a must in a good farm. Agriculture, together with program, advise field crop railways. The Dominion Co. specialists with the Ontario vermont assumes sixty per Department of Agriculture, cent of the assistance. In Farmers can get assistance cent years, there has been a through the Agriculture, definite trend toward move. Limestone Assistance Policy, ment by truck with tonnage inaugurated more than twenty-

five years ago, and administered, five years. In most cases, aid by the Field Crops Branch trucks are also used for spread of the Ontario Department of, ing directly to the fields from the source of supply.

It has been revised periodically by the Committee which accepts responsibility for agricultural Representatives of the Field Crops Branch, Ontario Department of Agriculture, and the general practice of this basic public service. Its usefulness and popularity has increased from 110 tons moved in 1956, to 22,115 tons in 1961. Subsidy paid for the fiscal year 1961-62 amounted to \$98,486. This is, on the basis of 75 per cent of reduced freight up to a maximum of \$2.50 per ton in Old, and 75 per cent of reduced freight in the Haliburton district in Northern Ontario. In the case of trucking, assistance at the rate of 8 cents per ton per mile to a maximum grant of \$2.50 per ton is provided for transportation from an approved source or distributing center.

The Policy is a co-operative

Haliburton

Dr. H. V. Kettering and family and Mr. Clancy, of Wilkingsburg, Penn., left for home after a holiday at Sunrise cottage, Loon Lake.

Mr. and Mrs. Lee Eagle, of Hamilton, were visitors in the village enroute to Ottawa via Barrie.

Mr. Rayburn Harte of Barrie is visiting at his home here.

Mr. Anthony Elstone was a business visitor in Lindsay.

Mr. and Mrs. Cyril Creary, of Toronto, spent a holiday in Haliburton.

Mr. Reg. Dutt who has been visiting her family out of town has returned for a while.

Mr. Jack Lyons has returned to Sunnybrook hospital in Haliburton. Mr. Lyons has been ill for the past three years.

Mr. and Mrs. Paul Thorne, of Toronto, were visitors at Silver Beach Lodge.

Mr. Oscar Yarnold has left for Sunnybrook hospital for further treatment. Mr. Yarnold has been ill for the past several months.

Thine Brannigan had a birthday party and in spite of an all day rain a happy crowd of his little friends enjoyed a few hours of fun followed by a birthday supper.

Mr. and Mrs. Lloyd Conesears are visitors in Toronto for a day or two.

STOP!... killing yourself

By Peter J. Steinhilber, M.D., F.A.C.P.

A PROBLEM OF SURVIVAL
The problem of curing aged parents is a universal one. It is especially trying for loving children to see former kind parents change into entirely different persons. This letter is an example:

Dear Dr. Steinhilber: Recently I took my mother, who is 75, to doctor. She hasn't been feeling "jumpy" lately. She accuses each one of my brothers and sisters of stealing her money and other things. Now she is accusing strangers she makes it sound so normal and natural that I don't wonder they may believe she is telling the truth. To think that we'd steal— from our own mother? Why does she do these things?

She also says we're someone hanging in her door at around 2 a.m. But we're sure there is no one. Please help understand what is wrong. Is there help for mother, or will she always be this way? She was a sweet person and parent, and I miss her. She is devoted to her children, now

she is turning against us with these false accusations. She seems very cross and her eyes get almost wild at times. Her face has a hard look to it now. What is there to do?—Mrs. K.

Comment: You haven't followed what your doctor told help. But there are some who have. In many similar patients nothing much can be done to help. In difficult patients such as your mother who improved after taking chlopharmazine, or similar medicines. Sometimes side effects. Why not talk it over with her doctor?

Dear Dr. Steinhilber: My dear, any cure for the changes in the skin as one approaches old age? Moles are appearing and brown patches (some as big as a dime).

I have used advertised cream but they don't help. Will vitamins help?—Mrs. I.

Comment: I don't know of any preventative treatment. It happens he (or she) is causing you are having a well rounded

"THE TOP" LINDAY: ONTARIO

Janelite

As the beginning of the new school term approaches congratulations are extended to all those students who were successful in their June examinations.

Mrs. Van Haltern is home from a week visit relative in "The Netherlands," and now Mrs. Pete Van Haltern and children are spending a week with her.

Mrs. Twigger is home from R.M.H. Lindsay, where he has been confined for several weeks.

Mrs. and Mrs. Harold Mason visited in Delta. Rev. and Mrs. J. Somerville called upon the Taylor family on their way through to Vancouver.

Just you won't need vitamins. Hormone creams don't help as a rule. I guess all you can do is use some coverage paste or cream, which are sold in drug stores, just for that purpose. I agree that ampie moles and brown spots can be disconcerting even though they are not a threat to health.

They'll Do It Every Time August 1, 1960

FOR THEIR PARTY, CANADA HAS CHANGED THE WAY IT DOES FOOD FOR WORK OF ART...

SO THEY SERVE BY CANDLE-LIGHT AND MOOD. HOW ANYTHING LOOKS...

Cresswell

News for week ending Aug. 18

Mrs. Dolly Casey is spending some time with her daughter and son-in-law, Mr. and Mrs. Gladwin Davey. Miss Wendy Boyce of Downview is visiting her mother, Mr. and Mrs. Donald Murray and family. Miss Eleanor Little of Little Britain is spending some time with her friend, Miss Isabel Murray.

Cherrywood is visiting her grandparents, Mr. and Mrs. Percy Brown for a couple of weeks.

Rev. and Mrs. William Farley and daughters, Kathleen and Heather of Port Arthur, are spending the month of August with George McGregory and are renewing old friendships among the communities of Cresswell, Sonoma, and Wick, which was their former home.

The ladies of the W.A. and W.M.S. are holding Home-Bake sales on Highway 7 at Manilla every Friday afternoon during the month of August. These are for the benefit of the tourists and cottagers passing by. St. John's Presbyterian Church was crowded and beautifully decorated with flowers for the service, at which the congregations of Sonoma and Wick joined to hear Rev. Wm. Farley, who conducted the Service. Rev. Farley was the pastor of these charges for over thirty years, leaving a year ago.

Rev. and Mrs. Farley and their three children are expected to take up their year in Port Arthur.

150 carloads of trees transported to U.S.

Maybe it's not the time of Douglas pine, however, is far to be thinking of Christ-tide the number one Christmas tree... but for the Christmas tree growers in Canada, which makes up one quarter of the consumption of such trees in the United States—Canadian trees are a round-the-world operation.

The Trade Department in Ottawa... in its monthly bulletin called "Foreign Trade," reports that last year 10 reports of the Christmas tree industry in Canada for the year ended in 1959 showed that the value of the Canadian tree exports to the United States was \$1,000,000.

The wholesale value of Christmas trees... a large part of this is New York State. There are three dozen kinds of Christmas trees in New York State last year... but proportionately few were fortunate enough to be sold in good season and were left to throw their unsold trees on what he termed "the sacrificial fire."

Much of the improvement in value to plantations grown Scotch pine... in the last decade, Canadian production of Scotch pine has multiplied seven times. Another Mrs. Farley delivered the large congregation with a beautiful solo, and the Choir rendered a lovely anthem.

Rev. and Mrs. Farley and their three children are expected to take up their year in Port Arthur.

EDITORIAL . . .

RAILWAY CROSSINGS ARE STILL POINTS OF GREAT DANGER

There are two interesting traffic signs on Highway 7-12, one at Myrtle and the other at Blackwater. These signs set the prescribed speed limit from their point of placement to railway crossings just a stone's throw along the road, at 45 miles per hour. True, the crossings have low-speed signals but even so, does this warrant adding up to them at three-quarters of a mile per minute?

The morning's news carries an item from Delhi, telling of the decapitation of a father and his daughter when their car was hit by a New York Central Railroad freight train at a level crossing just that southwestern Ontario town. In this case the crossing had no warning signals or bells and is designated only by a sign.

Reading the article, we couldn't help but wonder if there were perhaps two signs in the vicinity of the crossing—one indicating the crossing and another sign pointing to the highway department's road distance back from the crossing sign, prescribing a speed limit of 45 miles per hour. Perhaps there wasn't but we suggest that if a crossing accident occurs at either Myrtle or Blackwater, the 45 m.p.h. sign existing but could hardly be ruled out as a contributing factor even if the driver had warning signals and bells at the crossing. Both of these crossings are on curves and at the bottom of inclines.

Although passenger traffic over lines in the area is rising, this doesn't preclude the freight trains which are just as deadly and don't stick to regular schedules—They move when the cargo warrants it.

Twenty miles per hour at the approach to a rail crossing? 20 or 25 is still safer.

Remember way back when

AUGUST 29, 1912

The other day a morning of the south wind went to her hen house in the morning and found five of the feathered fons of the flock had been perfished. No clue of the perpetrator of the deed has been found. As yet, no clue of the perpetrator of the deed has been found. As yet, no clue of the perpetrator of the deed has been found.

For driving his freshly cleaned motor car on the sidewalk to avoid a muddy piece of road on Bond St. a well known automobile owner was fined \$5.00 and costs, amounting to \$6.50 in all in this morning's police court before Judge Magistrate Jackson.

Police Court

Flag at Half Mast
The town flag flew at half mast today over the market building in respect for the late General Booth, whose funeral takes place in London, England, today.

AUGUST 29, 1937
Serum for the combating of infantile Paralysis a disease which is spreading threat in many Ontario cities at the present time, was obtained in Lindsay recently when persons who in recent years have recovered from this disease offered serum at the Rose Memorial Hospital.

A report from Woodville stated that eight persons all of whom had the disease in the last epidemic three years ago were in Lindsay to donate their blood to the fight against the disease. All the Woodville donors are in good physical condition at the present time it is reported. It is also reported that a number from Lindsay, who have contracted the disease in the past, donated blood. A special officer from the Department of Health was down for this taking of serum and will be used to distribute from Toronto throughout the province whenever cases of the disease are reported.

Lindsay has been fortunate this year in that no cases have been reported.

VICTORIA AND GREY TRUST COMPANY

By order of the Board,
Lindsay, Ontario,
August 15th, 1962

R. G. Thomas, O.C.

General Manager

and Secretary.

Reports and Remarks...

DAILY CIRCULATION HITS RECORD HIGH
Average reported daily newspaper circulation in the United States and Canada has reached a record high—114,644,113. Despite cessation of publication by large circulation newspapers in five states.

The new reported total, representing an increase of 157,782 copies (1.4 per cent), was shown in results of a study recently completed by ABC.

The study showed an average weekday circulation decline of 17,448 copies, or 27 per cent, but Sunday circulation showed a rise of 10,227,7 or 46 per cent, for a record issue in the six-month period ending March 31.

Major newspaper census publication in California, Minnesota, Oregon, Pennsylvania and Vermont, since a comparable study in 1961.

The average daily circulation in last year's report showed an increase, while Sunday papers had seen a decline.

The study included data from 1,522 daily newspapers (1,446 evening papers) in the United States and Canada, day papers) and 564 Sunday papers. For a total of 2,386 as compared with 2,394 a year ago. Thirty-seven aural news circulation reports for the period under study.

Almost 97 per cent of the aggregate total daily and Sunday circulation is verified by ABC audit, assuring advertisers and advertising agencies of informed media space selection.

In Canada, 100 per cent of the reported daily and Sunday circulation was audited by ABC.

Evening papers had in circulation among the dailies with 45,073,726 copies, followed by morning dailies with 25,571,371 copies, and all-day papers with 274,448.

Sunday papers showed a circulation of 60,149,448, 53.3 per cent average last year.

PROPOSE ALL TESTS BE HALTED

The Soviet Union proposed today that all nuclear tests be halted, pending agreement on a foolproof test ban treaty. Soviet Deputy Minister Kuznetsov told the Geneva Disarmament Conference Russia is prepared to sign a ban on testing in outer space, the atmosphere, and underwater, with underground tests halted "... as he put it, ... under an understanding that would remain in force until such time as a permanent solution is arrived at."

THE OLD OFFER

Western sources turned the plan merely the old Soviet offer of an uncontrolled moratorium and said it was unacceptable. There was some disagreement over whether Kuznetsov proposed that the moratorium take effect. A Soviet spokesman denied that he mentioned any specific date. But several Western delegates said he suggested the halting of all tests November 1st.

ADMIT FIRING BULLETS

The East German Communists admit they fired the bullets that normally wound 18-year-old would-be recruits at the Berlin wall August 13th. But the official East German newspaper Neues Deutschland said that several Western delegates aimed their guns at the Communist border guards—forcing them to take cover while the youth lay for one hour, bleeding to death.

EVICTED

U.S.-Nazi leader George Lincoln Rockwell was evicted from a Montreal hotel today and has apparently abandoned plans to meet with the one thousand Canadian Nazis he claims seek organization. Rockwell is headed by plane for Boston after being termed an "undesirable" by the management of the hotel where he was staying. He arrived in Canada last night—saying he was in transit on his way home from an unnamed European country.

ALMOST AS BIG

U.S. Secretary of State Dean Rusk said today that the foreign aid efforts of other world nations—including Canada—are getting almost as big as the American one. Rusk told the U.S. Congress that this must be of great concern to Russia's Premier Khrushchev in this economic field. Canada's total foreign aid bill from the end of World War Two has been estimated at more than four-and-a-half billion dollars.

RESUME

Lumber talks resume in Ottawa today between American and Canadian officials in Ottawa. The U.S. officials are explaining why it would help the American West Coast lumber industry if Canada would impose quotas on her lumber exports to the U.S. The talks are private and a compromise is expected when they end later today.

Started answering service as hobby, becomes business

Unknown to many Lindsay 'Service' it enables the subscriber to answer the phone in their own words. Lindsay's answering service has been in operation without the necessity of being around for nearly a year. In the office, and will take calls Mrs. Kenneth Speck origin—seven days a week from 8 a.m. to 8 p.m. from 8 a.m. to 12 midnight. Post in an interview that the Angus Glen, a service started here in the telephone worked out by her husband answering business about a enables Mrs. Speck to give year that more as a hobby, and last service, and take all in during that short time has built formation from the calls which up the business to more than are relayed at regular intervals. Called the "210 Answering." At the present time work-

ing alone, Mrs. Speck hopes to manager of the Club 36, which was recently gutted by fire. (our basic, in more business) soon have been inquiring about his service during the past few months, she said, and she feels that as soon as she can operate non-stop, the business should increase, especially with the doctors who receive calls at all hours. Up to about six months ago, a similar service was operated by Mr. S. Martin, one time

FORCES DOUBLE-LEADERS

Stall at New York and Boston last night has forced a pair of American League doubleheaders today, Cleveland visits the Red Sox and Detroit plays the Red Sox in afternoon vein. After dark, it's Baltimore at Washington... Minnesota at Chicago White Sox... and Los Angeles at Kansas City Royals. All-time highs at San Francisco in the last National League game. At night, New York Mets at Philadelphia... Chicago Cubs at Pittsburgh... Houston at St. Louis... and Cincinnati at Los Angeles Dodgers.

RETAINS LEAD WITH 8-1 WIN

National League leader Los Angeles retained its two and one-half game lead over second place San Francisco with an 8-1 win over Oakland last night. The third place Red Sox dropped five and one-half games off the pace. San Francisco beat Milwaukee, 4-1... Houston trimmed St. Louis, 4-2... And Pittsburgh shaded the Chicago Cubs, 7-4. The New York Mets edged Cincinnati at Los Angeles Dodgers, 5-4... but bowed it the second game, 10-1. In the American, the New York Yankees edged Cleveland 2-1 in a rain-shortened five-inning contest. The second game was rained out. Washington blanked Baltimore, 4-0... Minnesota shot out the Chicago White Sox, 5-0... and Los Angeles outgassed Kansas City, 10-0. Detroit was rained out at Boston. Other baseball, briefly—The team physician says that Doctor saint Sandy Kousser will be able to pitch in about 10 days. Kousser has been sidelined with a blood circulation disorder which has caused his index finger on his pitching hand to go numb... Mets pitcher Tom Seaver is hospitalized in Philadelphia... with a back ailment which may sideline him for two or three weeks. Another New York hurler Roger Cramer did not make the Philadelphia trip because of a sore back. Bill Philadelphia pitcher Tony Gonzalez has been admitted to Temple University Hospital for observation and treatment of a back ailment. Gonzalez has been off the lineup for a week with an injured elbow.

INVESTIGATE

Montreal police are investigating the use of pop pills by athletes after an autopsy disclosed yesterday that a "Three Rivers, Quebec brawler died from an overdose of pills. Dr. Renee Fortin—ex-Quebec Provincial Medical-Legal Expert ruled that Robert Moreau died from "acute nephrosis, hyperbolic insulin and overexertion." Moreau went into convulsions toward the end of a football game at Laval near Montreal Sunday and died in hospital Monday.

UNOFFICIAL FAVORITE

"A.C.S. Vikings" is the unofficial favorite for today's 27th running of the Hamletton Handicap Racing Criterium at De Quin, Ontario. Nine colts, five fillies and one gelding will be in the field of 18. Observers feel that it will take three or four heats to decide the winner in the "Centurion Derby of harness racing." The weatherman forecasts possible showers, but a record crowd of more than 40-thousand is expected at the De Quin State Fair.

LEADS TWO WINNERS

Defending champion Anne Quast Decker leads two other former winners into the third round of the Women's Amateur Golf Championship at Rochester, New York. Mrs. Decker, who ousted Margie Burns yesterday, faces Mrs. Jean Trahan in today's third round. Also advancing are former winners Barbara McIntire and Joanne Gunderson. Top casualists include former Wimbledon tennis star Althea Gibson, 1948 Wimbledon Grand Slam champion, and British Davis Cup champion Lesley Turner.

16 QUALIFYING MATCHES

Eighteen qualifying matches are slated for today in the 100th annual U.S. Open Golf Championship and tomorrow to trim the men's field for the National Singles Tennis championships which begin at Forest Hills, New York, on Friday. The Men's Division must be cut to 128 for the tournament proper. Australian Rod Laver and Margaret Smith are top-seeded in their respective divisions.

WINNIFRED FITZGERALD

Mrs. Winnifred Fitzgerald, of Bethany, died in Civic Hospital, Peterborough on August 22, 1982, following a lingering illness. The funeral service was held on Friday from the Comfort Funeral Home in Peterborough with the Rev. Reginald Rose of Bethany officiating. Burial was in Little Lake Cemetery.

Mrs. Fitzgerald was born in Bethany, the former Winnifred Hannah and lived here until her marriage when she moved to Peterborough. A few years after the death of her husband, the late Percy D. Fitzgerald, she returned to live in the village. She has been a faithful member of St. Paul's Anglican Church, active in all its women's organizations.

She is survived by her twin brother, William Hannah Fitzgibbon, and her brother, Harry H. Hannah, both deceased.

Miscellaneous Shower

The Bethany community presented Miss Donna Durham with a shower of miscellaneous gifts in honor of her forthcoming marriage to Douglas Bertram Reynolds of Peterborough, which will take place in St. Paul's Anglican Church, Bethany.

The event was held in the Parish Hall which was decorated with baskets of flowers for the occasion. Miss Judy Decker read the address of congratulations and good wishes and assisted Mrs. Harry H. Hannah in presenting the many lovely gifts.

Miss Joan Robinson, of Oshawa, was chairman for the program which included piano instrumental by Miss Kathleen Horton, reading by Mrs. Paul Preston and a contest conducted by Miss Dianne Bigelow, which was won by Miss Sharon Capstick. During the social hour which followed, lunch was served.

Miss Durham has been a very popular girl in the community, having been employed in the local branch of the Toronto Dominion Bank for several years.

Bride-to-be feted

Haliburton (PNS)—A shower was held for Tressa Carpenter, a new bride and a bride-to-be in early September. The shower took place in the Salvation Army Hall which was decorated nicely. Quite a number gathered for the occasion. Some lovely gifts were given to the bride and she was made welcome in the community.

OMEMEE AREA GIRL ARRIVES IN FRANCE ON MISSION

Enid Skuce, L.T.L. member, arrived in France on her mission.

Enid Skuce, L.T.L. member, arrived in France on her mission. She will be one of 10 workers stationed at Capelle Francaise, 31 km. S. of Paris.

Miss Skuce left August 11th from New York City on board the ship "American Banker". United States Lines which docked on Monday August 20th in Paris.

Miss Skuce is a Missionary under the Alpine Mission to France which amalgamated with the Unwillingly Field

Mission. The headquarters in France is at Pre-Puget, St. Sigismond, Savoy, Albertville.

There is an appeal for 20 more people to assist in this cause in France. Miss Skuce will be required to furnish it. She expects to be there for four years after which she will have a furlough.

Enid attended No. 9 O. P. school, Lindsay Collegiate Institute, Gordon College, Boston, Mass., Central Baptist Seminary, Toronto, obtaining her L.T.L. and the Candidate's School for Missions, Philadelphia. She also studied French at Bethel Institute, New Brunswick, Que.

Prior to leaving for France Miss Skuce was the Leader of the Children's Special Service Mission held at the Community Centre in Bobcaygeon this summer.

75 children had the privilege of attending this Mission. Two years ago Enid was one of the Counsellors at the Bible Conference held at Bobcaygeon.

After completing her Missionary studies, Miss Skuce planned to go to Haiti. There was a considerable delay in obtaining her visa and in the meantime she received a call from France which she decided to accept as she could use the French language.

Miss Skuce is well-known in Bobcaygeon, Lindsay and Peterborough districts as she has always been active in church work especially Young People's and choir work being gifted with a lovely voice.

When she embarked on the ship in New York, she received many flowers, letters and telegrams showing the high esteem in which she is held by her many friends and their very best wishes for her for a safe journey and much success in her chosen work as a Missionary in France.

Martin Begley

Martin Begley, a long-time resident of Downesville, passed away at the Ross Memorial on August 21, 1962.

He is survived by his wife, the former Anastasia "Winie" two sons, Donald of Peterborough; Kevin at home and one daughter Eva, of Lindsay.

Also surviving are one brother Dennis and two sisters, Janet and Annie, all of Downesville.

He was predeceased by Michael, Thomas, Daniel, Ellen and Mary.

The funeral was held from the Suddard Funeral Home on August 24th. Interment was in St. Luke's Cemetery, Downesville.

Palibakers were Verdin Hancock, John O'Neill, Frank Costello, Gene Dowd, Dave Morrissey and Albert Clancy.

Omeme girl returns from tour

Omeme (PNS) — Miss Marion Rea returned from a delightful tour of western Europe.

Leaving July 1st, she visited England, Wales, Scotland, France, Holland, Belgium, on to West Germany, Switzerland, Austria, then to Italy as far as Rome. Then along the Mediterranean to Monaco, the French Riviera, up through the south of France to Paris.

These well conducted tours by bus are well patronized and she met quite a few South (Please Turn To Page 10)

Bethany Fire Fighters Assoc. seeks briefing on petitions

Bethany (PNS) — Renewed interest in being shown in the establishment of fire protection for Manvers Township. The Bethany Fire Fighters Association held a meeting at the home of President Vincent Jackson to review the matter.

It was found there is very good fire fighting equipment in Bethany village — a portable pump, hose, ladders, etc., but no fire fighting brigade.

It was pointed out that in 1960 a petition was presented to Manvers council from a majority of citizens asking that the township be granted fire protection and that it enter a mutual aid plan with suitable equipment. This was constructed by a second petition.

Reeve Henry Jakeman at the fire, the calls will still be attended by the operators at the town home and was instructed to central telephone office, which find out from the Township Clerk; council's stand as to the fire. Mr. Neal volunteered two petitions and if they had checked the present equipment and will be in charge of conveying the portable pump in case of fire. It was also decided to purchase additional fire meeting, that in case of loss.

Things have changed in 17 years

and so has Esso oil heat

It's been 17 years since John last wore his uniform. It was around the same time that thousands of Canadians were able to install new, cleaner oil heating equipment in their homes. Some of these faithful furnaces are now beginning to show signs of age. Time works both ways however, and many important improvements have been added to both heating equipment and fuel quality.

It costs very little to modernize your home heating plant. Maybe all you need is a new burner for your present furnace. Even a complete new oil heating unit costs much less than you might think. Everything you need is available on easy budget terms with the low interest Esso Heating Equipment Finance Plan.

If you are considering modernizing your equipment, investigate all the angles. Discuss your problems with us and let us help you to continue to enjoy the safety, convenience and economy of Esso oil heat with modern heating equipment.

Call your local Imperial Esso Agent or Distributor for complete information without obligation.

Spend winter in the wonderful world of **Esso** warmth

NOTICED . . along the way

These are the first big fish pictures of the season to come this way and they're 'first' all the way round. The top picture shows Adam Plesner, 13, of 1340 Townsend Ave., Port Credit, holding the big muskie he ever caught and he was fishing for the first time in Sturgeon Lake waters. Staying at Thurstonia Lodge, he landed the 29-pound,

40-inch long large white trout along Thurstonia Park. The fish gave him a 10-minute battle during which it broke water and cleared it by about ten feet. He was using a Williams silver spoon and got his big strike around 10:15 Wednesday morning. In the picture below, the fish is seen at Langdon's butcher shop where it was being placed in cold storage.

247 employees on RMI payroll during July

Two hundred and forty-seven employees were required in the July operation of the Ross Memorial Hospital according to the report of Administrative Treasurers submitted to the Board of Governors, Thursday.

Other statistics of the report: 445 admissions including 68 newborn; patient days, 3,815 including 487 mothers' and 373 infants' days; 130 maternities; average daily occupancy, 123; outpatient service, 254; 251 dental operations; 163, minor; 448, laboratory units; 7,639; physiotherapy treatments, 245.

Toilet bowls hard hit

Thirteen and 24 cracked and chipped toilet bowls, as reported by the Health Committee, were thrown on as serious by chairman R. I. Moore at the RMI board meeting.

"The manufacturers say this damage is due to sudden rough usage in the hospital. We don't think there is that much misuse in about a time. We are inclined to think the architects are at fault," said the chairman.

Board member A. W. Carver: "They tell me you can't fix toilet china bowls."

Chairman Moore: "I suggest we write the architect. It looks like something is faulty. They have been very fair with other replacements."

Members agreed.

Patrol fire in Cavendish

The forest fire in the Cavendish area, believed to have been started by a lightning bolt on Tuesday, is now under control, and is being watched for any further outburst.

Just less than 6,000 sq. ft. were burned. Lands and Agriculture Minister A. W. A. Walcott told the House that an "added precaution" would be taken to prevent any further outburst.

Color News

Fashion is true, the red and green, the blue and white, the yellow and black, the "true colors" are basic in many of the new fall styles.

Along with use of bold, clear, bright and impressive neutrals. Brown tones are being used in a chanel, white, camel, winter white, offer strong competition to the neutrals.

Muted and blended colors, which have been in vogue for many years, are being used in a chanel, white, camel, winter white, offer strong competition to the neutrals.

Dalmatian

Mr. and Mrs. Roy Devereil have a new addition to their family, a Dalmatian puppy, named after the St. James.

Not all patients foreign under the hospital plan

Kinghorn-Blackburn Nuptials OHSC rules some types not covered

The Ross Memorial Hospital Board decided Thursday night to clarify the controversial subject as to which patients have achieved chronically ill persons are covered under Ontario Hospital Insurance and custodial, or domiciliary patients are not.

The Ontario Hospital Service Commission, starting to make a check on hospital patients, has advised chronically ill persons are covered under Ontario Hospital Insurance and custodial, or domiciliary patients are not.

To educate the general public on this matter, an OHSC release was approved by the board and reads:

"A chronically ill person is one who needs skilled nursing care, regular medical attention and the special facilities of a hospital or the institution, one in whom treatment is expected to bring about a possible return to self-care, one who requires special nursing techniques, trays, special dressings, X-ray therapy, including catheters and irrigations, etc., one whose condition is unstable or requires the services of a specialist, such as diabetes, mellitus, myocardial insufficiency, pulmonary disease, one who has an incurable disease — terminal cancer, disseminated sclerosis, advanced Parkinson's disease, etc."

"These patients may be cared for in a nursing home (approved by the OHSC), a chronic hospital, a branch of a general hospital or a private hospital."

"A patient in a domiciliary patient is one who needs little or no medical attention and who requires the services of a recognized home nurse, one who is frequently unable to look after their normal daily needs and may require assistance in dressing, taking medicine, being helped from bed to chair, etc., and needs considerable nursing care of a simple type, one who might be suffering from the infirmities of old age or the debilitating effects of chronic conditions."

"These cases may be adequately looked after in their own home, with relatives, in a nursing home (not approved for a payment by the OHSC) or in a home for the aged."

Board Chairman Col. R. I. Moore pointed out physicians and hospitals are obligated to accept all patients in their mind when it comes to deciding which kind of accommodation or care the patient needs.

Minden

Mrs. James Fairchild has a guest on an old friend, Mrs. J. J. Pollock (née Austin) of Toronto.

Mrs. Cecil Yeoward is in the town of Minden, Ontario, and is the wife of Mr. J. H. Yeoward, and all her friends wish her a speedy recovery.

Miss Judy Normale is spending a while with her son, Mr. Yeoward and his family.

Mrs. J. Butterworth has been visiting her mother, Mrs. Ross, young and Susan.

Mr. and Mrs. Glen Vasey and family, of Windsor, are holding their wedding reception in the village.

Mr. Paul Corby, Sr., was taken ill at his home and all his friends wish him a speedy recovery.

Miss Alice Hughes and Mrs. Bruce Hoops are spending three months holiday before returning to their home in Wendell, Saskatchewan.

Mr. and Mrs. Angus Coulter visited the Leslie Coulter at Victoria Road.

Deformity drug being tested on cancer

London, Aug. 24. (UPI)—Thalidomide, the tranquilizer that deformed thousands of babies, is being tested as a possible cure for cancer.

British doctors at London's Hammerstein Hospital and the Chester Royal Infirmary are searching in Pulham to find the same factors that led to Thalidomide's suspected mutilation of unborn babies may also hold the key to a cancer cure.

Medical sources said they believe Thalidomide destroyed cells of the unborn babies. Therefore, they said, it might also destroy cancerous cells in adults.

"We have been asked to test Thalidomide since the recent French case — terminal cancer caused in children," a spokesman at the Fulham Institute said. "The tests are still going on. They are not complete by any means yet. The drug is being tested on children with tumors to find out whether it has any effect."

PLEASANT NEWS

The news that \$12.24 refund cheque was an overpayment on architect's fees has been received, resulting in smiles all around at the RMI board meeting Thursday.

Operation Sky Shield II will ground civilian craft

Montreal — Trans-Canada Airlines will cancel or alter scheduled departure of 134 flights or flight segments out of a total of 134 flights scheduled for Tuesday, Sept. 2, due to Operation Sky Shield II.

The groundings are necessitated by the military exercises in the Gulf of St. Lawrence and the presence of North American air defence system.

Operations will be in effect on Sept. 2nd should contact between military and civilian aircraft be made. Flights will be grounded from 7 a.m. to 6:30 p.m., Eastern time.

Brynell Manor Boy's Camp only one of kind in world

The Brynell Manor Boys' Camp and Hockey School, operated near Fenelon Falls on the Cameron Lakes, is the only one of its kind in the world now being constructed in this area.

The project is the brainchild of Frank and Anna Mankus who operated Brynell Manor for many years.

Mr. Mankus is a retired physician and his wife is a nurse. They are planning to open a nursing home (not approved for a payment by the OHSC) or in a home for the aged.

Board Chairman Col. R. I. Moore pointed out physicians and hospitals are obligated to accept all patients in their mind when it comes to deciding which kind of accommodation or care the patient needs.

Harold Feary gives up business

Haliburton (PNS) — Mr. Harold Feary who has operated a pool room in Haliburton for many years, has given up the business owing to ill health.

Mr. Feary spent some time in hospital and is now home. He has been attending to his business since he returned.

The business was carried on by Mr. Feary in a truck and quiet manner. His friends are going to miss him.

New prayer book, patron saint for Anglicans

Canada's nearly one-and-one-half million Anglicans today have a new prayer book and a new patron saint.

The 21st General Synod of the Anglican Church of Canada, decided in Kingston, Ontario, yesterday to adopt a revised Book of Common Prayer — the product of 19 years of work and debate. The only dissenting vote was recorded by Dr. J. C. Flanagan.

A Montreal delegate said the new prayer book was not sufficiently consulted before the book was instituted.

A feature of the new book is the section of historical notes which in effect adopt St. John the Baptist as the patron saint of the Anglican Church in Canada. The saint will be honored annually on the second day of — ending on Dominion Day, or St. Jean-Baptiste Day in French-Canadian tradition.

First meeting of its kind

A meeting of the first of its kind, will be held by the Lake Ontario Development Association, at the O.A.D.A. Club, Port Huron, on September 20th.

Victoria County agricultural representative, L. Brown, told "The Post" that it was the first meeting of its kind, as a group of Lake Ontario agricultural representatives.

Encouragement of a better understanding and closer cooperation between rural and urban centres, will be discussed.

Plans to improve the association, will be on the agenda, he said.

Brightline time and railway air lines will cancel or alter scheduled departure of 134 flights or flight segments out of a total of 134 flights scheduled for Tuesday, Sept. 2, due to Operation Sky Shield II.

The groundings are necessitated by the military exercises in the Gulf of St. Lawrence and the presence of North American air defence system.

Operations will be in effect on Sept. 2nd should contact between military and civilian aircraft be made. Flights will be grounded from 7 a.m. to 6:30 p.m., Eastern time.

Home League sale

Haliburton (PNS) — The Salvation Army Home League sale, which was held on Dr. Carroll's lawn, was a success, continued until four o'clock.

The weather was not favorable, but the goods stood by their work.

They were short of help from the community, but a few new knives were taken, but over \$600.00 was sale.

There was a sale in baking, a few pillowcases, tea, some and some crocheted work.

Mrs. C. Cannon and Mrs. Madill along with Capt. Resnick carried on faithfully.

People take pride in different things. Donald James Norton, aged 13, seen above, is proud of his scholastic achievement in winning the RBC Scholarship, presented annually to the pupil in Rea-Brown public school who obtains the highest marks in the Grade 8 examinations. The scholarship is in the amount of \$50 and Donald advances to the Lindsay Collegiate Institute this fall. The scholarship is a bequest left by the late Dr. Henry (Harry) K. of \$10,000.

Where form is a descendant of the founder of the Rea-Brown school, the late Dr. Henry (Harry) K. of \$10,000.

Fabrics

Fashions in home fabrics complement the richly romantic mood of fall vintage.

Working technicalities delay start on county warehouse

The building of the proposed new warehouse or road machinery depot on Albert St., has been held up by working technicalities.

Assistant County Engineer Dave Valentine says that after the plans for a building permit had been submitted, the Planning Board ruled the plans were satisfactory and that there is, therefore, this commercial building could not be rebuilt on the same site.

The committee of advisers subsequently held a meeting and the matter was referred to the provincial department of Planning and Development. To date the tender of M. J. Patterson, Co., of Peterborough was considered as the lowest received for construction of the new building.

The new building, estimated to cost \$118,935.00, is to be constructed on a site which has been purchased by the county and has been built on the site. The building was sold to a private party and has been removed from the site. A pole of the residents made objection to the building. Therefore, it is expected, the provincial department on the matter will be required to build on the same site.

An Indian Wells, California, judge leveled a punishment to the crime.

John William Gaynes, who pleaded guilty to beating and kidnapping a woman, was sentenced to 10 years in the state prison.

Rev. Somerset MacMillan speaks at morning service

Fenelon Falls (PNS) — Rev. Somerset MacMillan, of Paisley, Ontario, was the guest speaker at the morning service at the Presbyterian Church at the morning service.

Following the services there was a gathering of the clan.

The Rev. Mr. and Mrs. J.D. MacMillan in the Paisley, Ontario.

Open seasons in district

Following are the open seasons for game animals and birds in the Lindsay district, all dates inclusive:

Deer — (1) November 5th to the 17th, 1962 in Haliburton County, in that portion of Peterborough County north of the Lindsay district, in the townships of Somersetville and Longford and those portions of Dalton, Digby and Lindsay.

Quail — (1) November 5th to the 17th, 1962 in Haliburton County, in the townships of Somersetville and Longford and those portions of Dalton, Digby and Lindsay.

Moose — November 5th, 1962 in the same area as outlined in Deer.

Bear — September 1st, 1962 to June 29th, 1963, Special license required.

Rabbits — (a) September 1st, 1962 to March 31st, 1963, special license required.

Minuties were approved. Reports were given from the following: (a) February 22nd, 1962, (b) March 22nd, 1962, (c) April 22nd, 1962, (d) May 22nd, 1962, (e) June 22nd, 1962, (f) July 22nd, 1962, (g) August 22nd, 1962, (h) STOP!... killing yourself

By Peter J. Steinhorn, M.D., F.A.C.P.

THYROID DISEASE

Dear Dr. Steinhorn: Will read extract improve the pat-
size of the thyroid give us heart with hypothyroidism.
any lead as to how it is? Is
operation always necessary?

My L.
Comment: I suppose you high readings in the foregoing
know that your thyroid gland tests. The entire gland may
is situated in the neck. Nor enlarge so you can see it and
mally, you can't feel it or see feel it. Or, just a small nodule
It. Its job is mainly to regu- appear which becomes thy-
late the metabolism of the overactive. If you have the
your thyroid in lazy condition, you complain of slow-
er and underactive, you slow up, of weight in spite of voracious
eat. With the decrease of the appetite. Your eyes may bulge
operation because thyrotoxic. You feel weakness all over
patient complains of feeling peckish in your legs. You tire
cold all the time. The pulse is easily on climbing stairs and
The skin becomes blunt-complex of edging and red
et. Back and eyes bulge. Men-
ousness.
at processes slow up, sexual. You can sit still and relax
decreases, and excess. Your pulse is fast, sometimes
thyrotoxic. There may even be weight or another. If they get
blood making the person more changes (temporary) in your
susceptible to developing electrocardiogram. Your face is
thyrotoxicosis.

The underactive thyroid always warm. Instead of being an
to always enlarge so you always cold like the patient
can feel in the neck. The with hypothyroidism, you are
patient establishes the diagnos- always warm when others are
is by taking a basal metabolic rate test. If all this while is
taking a protein-bound iodine an overactive adenoma in your and effective treatment of thy-

roid, operation is the best
treatment. Once it is cut out,
most of those symptoms dis-
appear and you become an
other person, relaxed and
ready to enjoy life again.
If the hyperthyroidism is due
to a smoothly enlarged gland
that bunches out your neck,
there is a choice of treatment:
surgery. X ray, radioactive
iodine, or taking medicine to
pecially given to reduce thy-
roid overactivity. Sometimes
they take the place of opera-
tion, but often are ineffective
after a few years, and opera-
tion is necessary again.

Sometimes there is enlarge-
ment of thyroid due to adeno-
mas or lumps which do not
that bunches out your neck,
there is a choice of treatment:
surgery. X ray, radioactive
iodine, or taking medicine to
pecially given to reduce thy-
roid overactivity. Sometimes
they take the place of opera-
tion, but often are ineffective
after a few years, and opera-
tion is necessary again.

Oakwood

Mrs. and Mrs. Glen Sage,
Linda and Cathy, of Peterboro,
visited Mr. and Mrs. Cary Moy-
ner.

Dr. Ralph Hardy and Mrs.
Hardy were host and hostess
at a family picnic for the de-
scendants of the late Wm. F.
Hardy at their farm home East
Oakwood. Some of those at-
tending were Mrs. Wm. F.
Hardy, Dr. and Mrs. Sidney
Field, Jimmie and Margie of
Willowdale and Miss Marion
Hardy, of Toronto. Mrs. Warren
Boucher, of Edmonton,
who is visiting Ontario relatives
and friends was also present.
She was a frequent visitor
in former days. During
the afternoon, Mr. and Mrs.
Orville Wright and children
called on their cousin.

Mr. and Mrs. Dee King, of
Ir. visited Oakwood relatives.
Mrs. Joe Jenkins, Cameron
and little daughter, of Willow-
dale, are spending a few weeks
with her father and mother.
Mr. and Mrs. B. S. Cameron,
of St. Catharines, visited.

The main thing
is to get to your doctor in
time for proper management.

They'll Do It Every Time

Illustrated by Jim Harlo

By Jimmy Harlo

In the women's world

Packing for auto trip can be as difficult as packing for flight

Motorists are finding that luggage. One is small - for
packing for an automobile trip
can be as difficult as trying to
squeeze every accessible inch
a suitcase for an airplane
flight.

And many vacationers have
made the mistake of trying to
crum too much into their cars.
As a result, the more one
travels by auto... the less he's
likely to carry.

Experts at the American
Automobile Association say
that a motorist has more le-
gion than a traveler confined
to one piece of luggage. With
proper planning, and for con-
venience and safety, the car
should be packed as a suitcase.
When it's time to load the car,
the trip will be carefree and
happy... with everything you
need in its place.

Some clothing can be hung
on hooks at the sides of the
car. But the triple A frowns on
stringing rows of hangers a-
cross the back seat. It blocks
the rear-view vision and is a
potential traffic hazard.
Seasoned travelers find it is
best to carry two pieces of

packet of disposable cleaning
tissues.

A word on boxes of facial
tissues. Invariably, they're
seen perched about the rear
seat... a real safety hazard.
The boxes could knock the
box through the air, striking a
passenger. Tissues should be
kept on a seat, in the glove
compartment or in a special
container.

And now... one last look
at the list of vital necessities
for a successful car trip. Road
maps are the final ingredient
for a happy motoring vacation.
Keep them in a handy place
so the family navigator can
keep the car on course.

Quick, Easy
A quick and easy way to
clean diamond, gold and plat-
inum jewelry. Combine one
teaspoon of ammonia. Put
jewelry in a strainer and place
in mixture. Boil for five min-
utes. And rinse under cold
water.

One of the most important
pieces in the car - the glove
compartment - is where a
woman can use her organizing
talents. First, clean out the
compartment. Then place in it
neatly the first aid kit, pen-
cils, glasses, notebook and pencil,
springs... and possibly, a

STOP!... killing yourself

IT TAKES TWO TO MAKE THREE

Dear Dr. Steiner: I come to you as a last resort. If my husband reads it in your column, he will agree that the man can sometimes be the cause of the failure to have children. I've done my part, because I want so much to have a baby. The doctor said, "It's all right. Now he suggests that my husband be examined. But he refuses. There's nothing wrong with me," he says. What are your thoughts on the subject? — Mrs. T.

Comment: Not so many years ago the finger invariably pointed at the woman when a marriage was barren. I recall scores of childless couples who came for advice. I used to refer them to a gynecologist or obstetric for a "Rubin test" to check on whether or not the tubes were open. If they were closed off and could not be reopened that was that. They rarely considered that the husband might be the one at fault, but now I talk too fast and when I get faint, too. Especially if nothing is found. Fortunately, my work in the wife's examination is at a desk rather than heavy indolence the reason for in-labor.

By Peter J. Steiner, M.D., F.A.C.P.

But tell your husband that's old hat, now. For years we've realized that both wife and husband bore the responsibility of having examinations. Many women could bear children if their husbands had normal sperm counts. Tell your husband that there's no shame in having an examination and learning that the trouble lies in him. A man with the inability to procreate a child is no less a man than is a woman who can't bring forth a baby. But he is less a man if he won't share the responsibility and really try, instead of using the juvenile excuse, "There's nothing wrong with me." Have you told him that?

Dear Dr. Steiner: I have had two heart attacks. The first in July, 1958, and the second last March. My doctor said they were mild attacks to check on whether or not the tubes were open. If they were closed off and could not be reopened that was that. They rarely considered that the husband might be the one at fault, but now I talk too fast and when I get faint, too. Especially if nothing is found. Fortunately, my work in the wife's examination is at a desk rather than heavy indolence the reason for in-labor.

BRINGING UP FATHER

MYRTLE

Will the chest pains always be with me, or will they disappear in time? I am 46.

Comment: I would need more than your age, Mr. H., to make a diagnosis. And even that would be hazardous without an examination. Although, with your history, I immediately think of the possibility of angina as a cause of your chest pain, that is only a guess. Nevertheless, it is important that you ask your doctor for the specific diagnosis. Is or isn't angina pectoris the cause of your chest pain? Such a diagnosis should not hang loosely in the air. We have ways of determining it.

If the resting electrocardiogram don't show coronary disease, then your doctor may discover changes after the "treadmill" ECG. In many cases I had made the diagnosis of angina in patients who had no electrocardiographic changes at all. A careful history-taking made the diagnosis.

Let's suppose it is angina pectoris. In answer to your

Jimmie Walker, 14, son of Mr. and Mrs. William H. Walker of Lindsay will be guest soloist at Cambridge Street United Church next Sunday evening.

On September 19, Jimmie Walker, who will enter his 15th birthday on September 20, will be guest soloist at Cambridge Street United Church next Sunday evening.

Are you living within your limits? Are you normal-weighted? How is your cholesterol level? How is your blood pressure? How is your family history of coronary disease? If all these are favorable, there is a possibility because of collateral circulation... the formation of new blood vessels that the pains will disappear. (Released by the Bell Syndicate Inc.)
